8. Ratings, other than ratings whose homes are situated in Western Australia or north of Brisbane, are not to be permitted to accumulate leave from one leave period to another, except in very special circumstances where the forfeiture of the leave period would cause extreme hardship to the ratings concerned.

In the event of a rating not proceeding on leave during one of the usual leave periods, a notation should be made in the Long Leave Book in the columns allotted to such period, stating the decision of the Commanding Officer as to whether the leave not taken is to be (a) forfeited; or (b) deferred by permission.

(This Order will be reprinted for posting on Notice Boards.)

In accordance with the above, men who have been out of the Service for not more than five years may count all their former service, including odd days, towards both Progressive Pay and Long Service and Good Conduct Medal. 11.

EXCESS LUGGAGE RAILWAY WARRANTS.

With reference to Navy Order No. 252 of 1922, paragraph 5, several instances have come under notice of excess luggage warrants having been filled in incorrectly. It generally happens that the weight of luggage carried is less than that allowed by Naval Financial Regulations, but as the latter allowance is sometimes inserted on Warrants by Ships' Officers in the space reserved for Railway Department's entries, it is rendered possible that the Railway Department will overcharge this Department accordingly on such entries. The following instructions are therefore to be observed:

1. The weight allowed to be carried under Naval Financial Regulations at Departmental expense, inclusive of free allowance, is to be inserted on the warrant in the one place only, i.e., in the space provided on the second line in the body of the Warrant.

2. The particulars as to Total Weight Allowance, and Excess, space for which is provided for at bottom of warrant, are not to be filled in. This is for the use of the Railway Department only, and refers to the actual weight of the luggage carried, when weighed by the Railway Department.

The allowance in this case refers to the Railway Department's Free Passenger Allowance of 1 cwt. for first class and ½ cwt. for second class passengers. (A.43/1/5.)

12.

REDUCED ALLOWANCE IN LIEU OF RATIONS.

With reference to Financial Regulations (Sea-going), Article 6, Clause (10) Rations, as from 1st January, 1923, the allowance payable in lieu of rations will be 3s. per diem instead of 3s. 6d. In future this allowance will be known as Provision Allowance, and Financial Regulations (Sea-going) are being amended accordingly. (A.4/22/37.)

13.

SUPPLY OF SOAP AND WASHING SODA TO SHIPS AND ESTABLISHMENTS FITTED WITH A CENTRAL PANTRY.

In the case of Ships and Establishments fitted with a Central Pantry, approval is given for Soap to be issued from the Accountant Officer's stocks on board and expended in Clothing Account in the usual manner.

2. The requirements of Washing Soda for Central Pantry purposes are in future to be demanded by the Accountant Officer from the Royal Edward Victualling Yard and accounted for in the Clothing Account. (S.423/2/12.)

14.

ACTING SCHOOLMASTER, ALLOWANCE TO—AMENDMENT OF FINANCIAL REGULATIONS AND INSTRUCTIONS (SEA-GOING).

The following amendment of the Financial Regulations and Instructions (Sea-going) has been approved, with effect as from 1st October, 1922:—

AMENDMENT.

Article 9 is amended by omitting clause (45) and inserting in its stead the following clause:—

"(45) Acting Schoolmaster—

To the rating acting as Schoolmaster (payable under the conditions prescribed in King's Regulations and Admiralty Instructions, Article 1450) . . . 0s. 8d."

(A.4/1/48.)

15.

DEFERRED PAY—AMENDMENT OF FINANCIAL REGULATIONS AND INSTRUCTIONS (SEA-GOING).

The following amendment of the Financial Regulations and Instructions (Sea-going) has been approved, with effect as from 1st January, 1923:—

AMENDMENT.

Article 12 is amended by omitting clauses (2) to (7) inclusive and inserting in their stead the following clauses:—

(2) Interest at the rate of 3½ per cent. shall be credited annually on the 30th June in each year on the amount of accumulated Deferred Pay standing at credit of each member on 30th June of the previous year, provided that a full year's interest shall be allowed only on amounts which have stood to the credit of the member for a full year. Interest added to Deferred Pay Account shall be considered as part of accumulated Deferred Pay and shall bear interest accordingly.
In the event of any member or his estate becoming entitled to receive Deferred Pay on account of discharge, expiration of engagement, resignation, death, or for any other reason as provided in these regulations, interest on the amount of accumulated Deferred Pay standing at credit on 30th June prior to the date on which he or his estate became entitled to payment of Deferred Pay in the circumstances aforementioned shall be allowed from 1st July to the end of the month in which payment of Deferred Pay becomes due.

The Deferred Pay Account of an officer or man shall be closed when payment is made in full of the amount accumulated, or when payment is made on expiration of an engagement. In the event of an officer or man re-entering the Service or continuing in the Service after drawing Deferred Pay, no interest shall be allowed in respect of any amount at credit prior to the closing of the account.

(3) Payment of Deferred Pay and accumulated interest will, with the approval of the Naval Board, become payable in the following circumstances:

(c) Upon being invalided from the Service for causes beyond the officer's control;
(d) Upon the death of the officer whilst serving.

(ii) Petty Officers and Men—

(d) Upon discharge to Shore, excepting as provided in clause (4);
(e) Upon being invalided from the Service for causes beyond the rating's control;
(f) Upon the death of the rating whilst serving.

(i) discharged "Run";
(ii) dismissed from His Majesty's Service with disgrace;
(iii) dismissed from His Majesty's Service; or
(iv) discharged from the Service as "Services no longer required" on account of misconduct;

shall be entitled to any payment under this Article.

(5) No payments in respect of accumulated Deferred Pay shall be made other than in the circumstances prescribed in sections (i) and (ii) of clause (3) of this Article, but the Naval Board may, in special circumstances, restore the whole or any portion of the Deferred Pay which but for the reasons set out in clause (4) of this Article would have been payable. Such cases shall generally be limited to cases where "Run" has been removed.

(6) Contributions by the Commonwealth towards pension rights of men lent from the Royal Navy shall be deducted from amounts credited to those men on account of Deferred Pay.

(7) Deferred Pay shall not be credited in any of the following circumstances:

**ABSENCE WITHOUT LEAVE—REMOVAL OF “RUN.”**

With reference to Article 802, clause 2, of the King's Regulations and Admiralty Instructions, relative to Absentees who are marked “Run,” the Naval Board have decided that in cases where the Captain is subsequently satisfied that there was no intention to desert, and authorizes the removal of the “R,” the period of absence should be regarded as leave, and deducted from annual leave due for the current year, unless otherwise decided in accordance with Article 802, clause 2.

2. In cases where the period of absence exceeds the amount of leave due for the current leave year, full particulars are to be reported to Navy Office for decision as to any further action to be taken.

(A. 30/23/186.)

19. 

**CERTIFICATE ON BACK OF RAILWAY WARRANTS.**

With reference to paragraph 6 of Appendix II., Consolidated Navy Orders 1911–1920, attention is drawn to the fact that the certificate on the back of the Warrant must in every case clearly indicate reason for issue of the Warrant.

2. A certificate to the effect that a rating is “discharged to shore” is insufficient, and further details are required in order to indicate whether the Warrant is chargeable to the Department or the individual, e.g., “Discharged to shore, invalided,” “Discharged to shore, engagement expired,” “Discharged to shore at own request,” &c.

3. It is pointed out that in the latter case, under the provisions of paragraph 6, Article 21, of Naval Financial Regulations, ratings must themselves defray cost of rail or steamer fare to their homes or Port Divisions, except as provided in Navy Order No. 263 of 1922.

4. The issue of all such chargeable warrants should be advised each month, in accordance with Navy Order No. 116 of 1922.

(A. 43/3/712.)

20. 

**CONDEMNATION OF TINNED AND OTHER PRESERVED PROVISIONS.**

Several instances of condemnations of preserved provisions have recently occurred which losses were occasioned owing to such provisions not having been issued in accordance with age as laid down in King's Regulations and Admiralty Instructions, Article 1733, or on account of the requirements of the Ship or Establishment having been considerably over-estimated.

2. In regard to stocks of preserved provisions generally, it is pointed out that it is a direct responsibility of the Accountant Officer to take such action as may be necessary to obviate as far as practicable any loss to the Crown. This may be effected by issue being arranged to another Ship or Establishment, or for the articles to be returned to the Royal Edward Victualling Yard in ample time to permit of re-issue and consumption within the required period.

3. A perusal of the Numbers and Contents Book will afford the Accountant Officer a ready guide as to the general state of the stocks affected. This examination should be made at least once during each quarter.

(S. 443/1/76.)

21. 

**AMENDMENT OF PRICE OF ISSUE OF “LECTURE NOTES ON ELEMENTARY NAVIGATION AND CHART WORK.”**

The price of issue on repayment of the book entitled “Lecture Notes on Elementary Navigation and Chart Work,” by Commander (N) C. A. Merriman, R.N., as stated in paragraph 4 of Navy Order 337 of 1922 is to be amended to 1s. 6d. per copy as from date of issue of this Order.

COMMONWEALTH INCOME TAX.

With reference to Navy Order No. 65 of 1922, in which it was advised that all Officers and Men of the Royal Australian Navy were subject to Commonwealth Income Tax from 1st July, 1920, the following extracts from the Income Tax Assessment Act 1915-1918, and the Income Tax Assessment Act 1922, are promulgated for general information:

Section 13 of Income Tax Assessment Act 1915-1918:

"This Act shall not apply to income derived from personal exertion by any person who is, or has been on Active Service outside Australia during the present War, with the Naval or Military Forces of the Commonwealth, or any part of the King’s Dominions, or of an Ally of Great Britain, from the date of his enlistment in or appointment to those Forces until the date of his discharge therefrom or the termination of his appointment."

Section 98 of the Income Tax Assessment Act 1922:

"Notwithstanding anything contained in any Act repealed by this Act, a person who was on Active Service with or in any way attached to the Naval Forces of the Commonwealth during the War which commenced on the 4th day of August one thousand nine hundred and fourteen shall not, by reason of such service, be entitled to exemption in respect of income derived by him from personal exertion after the 30th day of June one thousand nine hundred and twenty-one."

2. As the law now stands, Officers and Men of the Royal Australian Navy, who served outside Australia during the recent War, are entitled to exemption from Federal Income Tax as from the date of enlistment (if that date was subsequent to 4th August, 1914) in respect of income from Personal Exertion derived during the War period and prior to 1st July, 1921. The previous Departmental decision making such exemption effective only up to 30th June, 1920, has been modified by Section 98 of the Income Tax Assessment Act 1922, in so far as to extend this exemption up to 30th June, 1921.

3. All Officers and Men of the Royal Australian Navy are required to render returns, and are liable to be assessed in respect of any income derived by them subsequent to 30th June, 1921, if such income exceeded £200 per annum. Returns should accordingly be rendered forthwith.

4. Officers and Men of the R.N. on loan to the R.A.N. are appointed to, and are therefore members of the latter Service during the period of their engagement.

5. The Commissioner of Taxation has intimated that in the case of R.N. Officers and Men who were engaged on loan prior to 30th June, 1921, under the terms of Navy Order No. 43 of 1916 (C.N.O. Article 252), exemption may be allowed up to the date of the termination of their loan engagement. Such exemption will not apply, however, to an extension of engagement, commencing subsequent to 30th June, 1921.

This paragraph does not relieve Officers and Men who are on loan from the Royal Navy from the necessity for rendering returns of their income, in compliance with paragraph 3 of this Order, when rendering such returns, however, exemption under this paragraph should be claimed on income from personal exertion.

2. Demands to complete to the above revised Establishment are to be forwarded to the Naval Store Officer, Sydney.

3. The above Establishment is to be added to that shown in Navy Order No. 251 of 1922.

36. PROMOTION OF WARRANT OFFICERS TO COMMISSIONED OFFICER FROM WARRANT RANK.

With reference to Navy Order No. 385 of 1922, it is desired to point out that paragraph 2 of this Order states that Warrant Officers, Royal Australian Navy, will be eligible for consideration for promotion to Commissioned Officer from Warrant Rank on attaining certain specified seniority. It is not implied that Officers will necessarily be promoted on reaching the seniority specified; these seniorities mark rather the commencement of the Promotion Zones.

2. The Board propose to consider annually, about June in each year, the claims of all Warrant Officers who possess the required qualifications under the Navy Order, and the promotion of those selected for advancement will date from 1st July.

3. In due course when, after 1st July, 1930, all Warrant Officers are required to possess 10 years' seniority before being eligible for promotion, Officers will be considered for advancement as from the date on which they attain the required seniority.

37. REGULATING PETTY OFFICER—VACANCIES IN FLEET NUMBERS.

Five vacancies in the Regulation Branch for the rating of Regulating Petty Officer will require to be filled at an early date.

2. The qualifications necessary for the rating of Regulating Petty Officer, vide Appendix XV., Part I., No. 124, K.R. & A.I., are as follows:

"Candidates must be under 30 years of age, and may be drawn from any Branch, but must not hold a lower equivalent rating than Petty Officer. They must have three years' sea-going service, with 'V.G.' conduct for the three years immediately preceding the Examination. They must be of a minimum height of 5 feet 7 inches; thoroughly recommended as suitable for regulating duties, and have passed the Educational Test, Part 1."

3. Candidates selected will be examined, after a two months' course at Flinders Naval Depot, and, if successful, serve on probation for a period of at least one year from the date of passing the Examination. Qualified probationers will be rated "Acting Regulating Petty Officers" until finally transferred.

Candidates who fail to pass the Depot Examination must revert to their former employment.

4. The names of volunteers, accompanied by Service Certificates, should be forwarded direct to the Commanding Officer, Flinders Naval Depot, Westernport.

(b) That the allowance is payable to the person only whose name is mentioned in the certificate signed by the recruit.
(c) That claims for the allowance are put forward within 30 days of the date of final entry of the recruit concerned.

The duplicate certificate is to be attached to Form A.S. 55 and form part of the usual Form of Engagement.

6. A member of the Permanent Naval Forces should make his claim in the first instance to the Captain of his ship or Establishment, who will forward the claim on Form N.A. 4 to the D.N.O. concerned, or in the event of recruits being originally dealt with direct by Tingira to the Commanding Officer of that ship, when the following action is to be taken:

OFFICERS AND MEN IN HOSPITAL ON SHIP SAILING.

Cases have occurred where men have been left in hospital by ships sailing and the provisions of Article 24 of Consolidated Navy Orders 1911-192 have not been complied with.

2. This article is to be strictly observed in future.

CANDIDATES FOR ENTRY TO E.R.A. AND ARTISAN BRANCHES—PROOF OF TRADE QUALIFICATION.

The Naval Board have had under consideration the question of the trade qualifications of candidates for entry to the engine-room and artisan branches and have decided that, except as provided in paragraph 2, all candidates for entry to these branches must produce indentures showing an apprenticeship of at least five years, or written evidence of practical experience in the respective trade covering a similar period.

2. Candidates who, owing to age or appearance, or other unavoidable causes, are unable entirely to comply with the above requirements, but whose papers show good trade qualifications and experience, are to be allowed to complete the trade test, but must not be finally entered until the whole of the entrance papers, including the result of the trade test, have been submitted to the Naval Board for approval.

3. It is recognised that a candidate may be a fully indentured tradesman and yet may fail to meet the Service trade standard. On the other hand, a candidate may not have served an apprenticeship, but may have sufficient training and experience to comply entirely with Service conditions and trade requirements. Recruiting Officers and Officers conducting trade tests are, therefore, to exercise the greatest care in the selection and passing of these candidates, in order to maintain a high trade standard in the Service.

(S.612/36/4364.)

59. DEFERRED PAY OF OFFICERS.

It has been represented to the Naval Board that the universal and immediate application of the new regulations regarding Deferred Pay, contained in Navy Order No. 15 of 1923, will probably prevent some Officers from fulfilling financial obligations which they have entered into.

2. In order to prevent any such embarrassment, the Naval Board are prepared to consider any such case on its merits with a view to the new regulation being relaxed if considered necessary.

3. Any Officer who, in the expectation of the payment of Deferred Pay at the end of his current seven-year period of service, has entered into financial engagements which it is anticipated he will not be able to meet in the event of Deferred Pay not being available at the end of that period, should forward full particulars, supported by documentary evidence, for the information of the Naval Board, to arrive at Navy Office, Melbourne, on or before 15th April, 1923, from Officers serving in Australian waters; a proportionately later date will be allowed in the case of Officers serving elsewhere.

(A.30/19/7.)

Qualifying and re-qualifying Courses for Physical and Recreational Training Instructors will, in future, be carried out in Australia, in conjunction with the Military Authorities.

3. In view of the difficulty of obtaining candidates to qualify for this non-substantive rating, volunteers are invited from Able Seamen who have passed for the rating of Leading Seaman. Able Seamen on qualifying as Physical and Recreational Training Instructors will be advanced to the rating of Leading Seaman.

4. Reports, on Form A.S. 1303, accompanied by Service Certificates of ratings volunteering and recommended to qualify as Physical and Recreational Training Instructor, should be forwarded forthwith direct to the Captain Superintendent of Training, Flinders Naval Depot, by all Ships and Establishments.

(P.334/2/97.)

64. VISITS OF R.A.N.R. TRAINEES TO H.M.A. SHIPS AND ESTABLISHMENTS.

With reference to Article 12 of Consolidated Navy Orders 1911-20, every reasonable facility is to be afforded for drafts of R.A.N.R. trainees to visit H.M.A. Ships and Establishments for instructional purposes when a request to that effect is received from the District Naval Officer or Sub-District Naval Officer of the Port concerned.

2. At present, the Royal Australian Naval Reserve is the only Reserve available for completing the Ships of the Royal Australian Navy on mobilization for War, and it is most necessary that every opportunity should be used for these trainees to be shown over and become acquainted with H.M.A. Ships and Establishments.

3. All District Naval Officers and Sub-District Naval Officers are, when one of H.M.A. Ships visits the port, to make use of every opportunity for sending parties of trainees on board for instructional purposes, the drafts being sent in their own boats and in charge of an Officer of the R.A.N.R. Staff. The necessary arrangements should be made by the District Naval Officer or Sub-District Naval Officer with the Senior Officer of the visiting Ships.

Attention is called to the necessity for great care in the transmission of W/T. and Land Line messages, where financial amounts and quantities of stores, &c., form part of the message.

2. In order that the possibility of errors in transmission may be reduced to a minimum, financial amounts and quantities of stores, &c., are invariably to be transmitted in words instead of figures.

(G.124/11/22.)

68. ENGAGEMENT FORMS (A.S. 55, A.S. 55a AND A.S. 55b.)

     (a) Six years' service as Butcher, 1st Class.
     (b) Satisfactory character.
     (c) Recommended for rating for at least three years consecutively immediately prior to advancement.
     Advancement will be subject to vacancy existing.
     Authority to give rating—Naval Board.

   Note.—Ratings who entered as Leading Cook's Mate (Butcher), will be required to complete 12 years' Man's service, including 6 years as Butcher, 1st Class, before being eligible for Chief Butcher.

4. Article 197 of the Consolidated Navy Orders 1911-1920 is hereby cancelled.

\( ^*\) Note. Butchers, 1st class, of exceptional ability may be advanced to Acting Butcher 2nd Class on completion of 24 years' service in the lower rating.

(P.303/22/17.)
138. **Repatriation Benefits—Eligibility of Members of the R.A.N.**

With reference to Navy Order No. 229 of 1921, relative to the above subject, it is notified for information, that the conditions of the issue of Tools of Trade apply only to those ex-members of the Royal Australian Navy who entered the Service subsequent to the outbreak of War.

2. Navy Order No. 229 of 1921 is to be amended, therefore, by deleting the words "prior to, or," in the first line of paragraph (b).

(This Order will be reprinted for posting on Notice Boards.)

139. **Officers of the Royal Navy—Amendment of Financial Regulations and Instructions (Sea-going).**

The following amendment of the Financial Regulations and Instructions (Sea-going) is approved with effect as from 1st October, 1922:

**Amendment.**

Article 4 is amended by inserting after the words "Travelling Allowance" in the eleventh line of clause (12) the following paragraph:

"Notwithstanding the above, Officers of the Royal Navy appointed to the Royal Australian Navy on and after 1st October, 1922, shall receive the rates of Active Pay and Allowances prescribed for their respective ranks in these Regulations and Instructions."

2. Navy Order No. 77 of 1923 is hereby cancelled.

(This will not be reprinted in "Amendments.")

140. **Transactions with Royal Edward Victualling Yard, Sydney.**

The attention of the Naval Board has been drawn to the excessive casual demands of H.M.A. Ships and Establishments made on the Royal Edward Victualling Yard, Sydney.

2. In the case of Clothing, demands are apparently often lodged for individual requirements which, if stocks are properly controlled on board, should usually only be necessary in the case of stock sizes and made to measure uniform. The attention of Accountant Officers is therefore called to the necessity for limiting, as far as possible, casual transactions with Royal Edward Victualling Yard.

3. General requirements of the majority of other Victualling Stores from Royal Edward Victualling Yard should as a rule, be met by a quarterly replenishment, and should not exceed one demand monthly (for each Victualling Account concerned) except for very special reasons, which are to be specified on the demand.

4. Prior to Ships proceeding on an ordinary cruise or on detached duty, Accountant Officers are, wherever practicable, to obtain their requirements for all supplies from Royal Edward Victualling Yard to cover the period until return to Sydney, thus reducing to a minimum freight charges to out-ports.

(S.433/1/61.)

141. **Losses of Officers' Mess Traps.**

With reference to Navy Order No. 13 of 1921, it is notified for future guidance of all Officers concerned that, where recovery is being made from individuals for the loss of Mess Traps, the full or three-fourths replacement value, according to the circumstances and prices applicable at the date of recovery, is invariably to be charged unless special Naval Board approval is given to a lower rate.

(S.433/1/44.)

142. **Form A.S. 83, Part II., Clothing Account, Revised 1922.**

Instruction No. 3 contained in the above Form is to be amended to comply with the Instructions contained in Navy Order 134 of 1922. All receipts and issues referred to are to be entered separately and not summarized as one entry.

(G.418/2/278.)

143. **H.M.A. Naval Establishments, Sydney—Appointment of Civil Secretary to Captain Superintendent.**

Mr. G. P. Norman Watt has been appointed Civil Secretary to Captain Superintendent, H.M.A. Naval Establishments, Sydney, and commenced duty in that office on 10th April, 1923.

(P.609/51/5.)

144. **Corrigendum.**

Navy Order No. 58 of 1923 is cancelled as it is superseded by Navy Order No. 111 of 1923.

(S.612/36/436.)
AMENDMENT OF NAVAL FORCES REGULATIONS.
(Statutory Rules 1921, No. 1, as amended to present date.)

1. Regulation 49 is amended by adding at the end thereof the following sub-regulation:—

CANDIDATURE FOR PARLIAMENTARY ELECTIONS, ETC—MEMBERS OF THE NAVAL FORCES.

It is notified for the information of all concerned that Admiralty Fleet Order No. 2968 of 1922 will not apply to members of the Permanent Naval Forces.

2. As regards the eligibility of a member of the Permanent Naval Forces to be chosen or to sit as a member of Parliament, attention is drawn to section 44 of the Constitution Act as follows:

"44. Any person who—
(i) ... 
(ii) ... 
(iii) ... 
(iv) Holds any office of profit under the Crown, or any pension payable during the pleasure of the Crown out of any of the revenues of the Commonwealth, or
(v) Has any direct or indirect pecuniary interest in any agreement with the Public Service of the Commonwealth otherwise than as a member and in common with the other members of an incorporated company consisting of more than twenty-five persons, shall be incapable of being chosen or of sitting as senator or a member of the House of Representatives.

But sub-section (iv) does not apply to the office of the Queen's Ministers of State for the Commonwealth, or of any of the Queen's Ministers for a State, or to the receipt of pay, half-pay, or a pension by any person as an officer or member of the Queen's navy or army, or to the receipt of pay as an officer or member of the naval or military forces of the Commonwealth by any person whose services are not wholly employed by the Commonwealth."

3. The provisions of sub-paragraph 6 of the above quoted Admiralty Fleet Order are dealt with in Naval Forces Regulations as follows:

"134. (1) Members of the Naval Forces are forbidden, when in uniform or on duty, to institute, or attend, any meeting, demonstration, or procession for any religious or political purpose."

147.

R.A.N.R. OFFICERS AND MEN ATTENDING COURSES AT FLINDERS NAVAL DEPOT—RAILWAY AND STEAMER VOUCHERS FOR RETURN JOURNEYS.

The return passages from Melbourne of R.A.N.R. Officers and/or Men undergoing courses of instruction or qualifying courses at Flinders Naval Depot will be arranged as in the following paragraphs.

2. As a general rule, the Home Port Office will issue signed railway and/or steamer warrants for the return journeys, the date, if necessary, being left blank, but in any cases where this arrangement cannot be followed, return passages from Melbourne will be arranged by District Naval Officer, Victoria, to whose office the returning personnel are to be instructed to report for their tickets.

3. Only in exceptional cases will it be necessary for the District Naval Officer, Victoria, to arrange return travelling for personnel other than those from the Victorian District.

4. The Captain Superintendent of Training will notify the District Naval Officer by signal at least seven days in advance of the personnel for whom return passages will be required, giving dates on which they will be leaving Melbourne by Inter-State train (or by steamer) for their Home Port, and will instruct the Officers and Men concerned to report to the District Naval Officer on completion of their course.

5. Any applications for leave in Victoria without pay not exceeding fourteen (14) days may be approved at the discretion of the Captain Superintendent of Training, provided that any such applications have been submitted at least seven (7) days prior to the termination of the course.

6. Navy Order No. 483 of 1921 is hereby cancelled.

150. CAPTAIN IN CHARGE, H.M.A. SHIPS AND NAVAL ESTABLISHMENTS, NEW SOUTH WALES: APPOINTMENT.

With reference to A.F.O. 149 of 1922, it has been decided to alter the appointment of Captain in Charge, H.M.A. Naval Establishments, Sydney, and Senior Naval Officer, New South Wales, to Captain in Charge, H.M.A. Ships and Naval Establishments, New South Wales.

2. The duties and authority of the Office holding this appointment will continue to be as laid down in Article 19 Consolidated Navy Orders (except as regards paragraph 2 thereof, which is hereby cancelled), and Navy Order 288 of 1922.

3. The abbreviated title will be C.C.N.S.W., and Navy Order No. 370 of 1921 is to be amended accordingly.

(This Order will be reprinted for posting on Notice Boards.)

151. JEWISH HOLY DAYS.

Attention is drawn to Admiralty Fleet Order No. 252 of 23 in regard to the Jewish Holy Days, and, so far as the exigencies of the Service permit, leave of absence for the purpose of attending their religious observances may be granted to Officers and men of the Royal Australian Navy belonging to the Jewish faith, on the dates specified in the abovementioned order.

(G.137/1/15.)

152. PRESENTATIONS, RELICS, TROPHIES, ETC.—CUSTODY OF.

The instructions issued in Navy Order No. 378 of 1922 for the accounting of Presentations, Trophies, &c., will not apply to Challenge Cups, Shields, &c., for inter-ship competition in H.M.A. Fleet. The following procedure is to be observed in regard to such articles:

(a) When a cup, trophy, &c., is presented to the Royal Australian Navy for competition between ships of H.M.A. Fleet, a report giving name of donor, date of presentation, description of article, and any other details considered necessary is to be forwarded to Navy Office at time of presentation.

(b) Half-yearly returns on 30th June and 31st December are to be forwarded into office by the Commodore Commanding, H.M.A. Fleet, showing the changes made in Challenge Cups, Shields, &c., in H.M.A. Ships during the previous six months. If no transfers of such articles have been made during any half year a "nil" return is to be forwarded.

(c) When a ship holding any competition cups, &c., is paid off into reserve such articles are to be surrendered to the Flagship for safe custody until again required.

2. These provisions are not to apply to Challenge Cups, Shields, &c., which have been presented for competition solely in any one Ship or Establishment; in these cases the instructions contained in Navy Order No. 378 of 1922 should be observed.
155.

CONTINGENCY CLAIMS FOR SUPPLIES TO H.M.A. SHIPS—PAYMENT BY NAVAL ESTABLISHMENTS AND OFFICES.

The procedure to be followed in forwarding claims from H.M.A. Ships to Naval Establishments and Offices for payment has been modified by dispensing with the preparation of a covering Form N.A. 4 and by obtaining on the Form A.S. 22 the additional certificates which were obtained on the Form N.A. 4. The following amendment to Navy Order 290 of 1921 has been approved:

Paragraph 2 is amended as follows:

(i) Clauses (ii) and (iii) are omitted and the following clauses inserted in their stead:

(ii) The signature of claimant is to be obtained on Form A.S. 22 immediately opposite the total amount shown in figures, such signature being preceded in all cases by the designation "Signature of Claimant."

(iii) Form A.S. 22 is to be forwarded under cover of authority in form as per appended specimen to the Certifying Officer in the following list in whose District the expenditure was incurred:

- Victoria—Navy Office, Melbourne.
- Other States—Naval Staff Office, Brisbane, Hobart, Port Adelaide, and Fremantle.

The Certifying Officer at the Naval Establishment or Office will furnish the usual Certificate, i.e., "Certified and approved for Payment" immediately after the certificate of the Captain on the back of Form A.S. 22.

(2) Clause (vii) is omitted.

SEA STOCKS OF MEAT.

It is notified for general information that several recent losses to the Crown have occurred owing to sea-stocks of fresh or frozen meat, such as chops, sausages, and other similar small goods being obtained for long storage in the cold chambers of H.M.A. Ships. To avoid such losses in future it is communicated for the guidance of Accountant Officers that, where such articles cannot be normally utilized for consumption within a few days after receipt, they are not to be purchased for sea stocks, as the element of loss by deterioration in the comparatively high temperature of the cold chambers in H.M.A. Ships is great. Future losses of this description will not therefore be admitted as a charge to the Crown unless for very special reasons which should be fully reported in each instance.

161. DEFERRED PAY—OFFICERS.

In regard to Navy Order No. 59 of 1923, the Naval Board desire it to be made known that a reversion to the practice under which Deferred Pay became payable to Officers of the Permanent Sea-going Forces in seven-yearly periods, would mean that all such Officers would at once become compulsory contributors to the Fund established under the provisions of the Superannuation Act. The decision to defer payment, as promulgated in the above-quoted Order, was arrived at after full consideration, and is the only means whereby the right of election to become contributors to the Fund can be preserved to Officers. Had the right of election not been preserved, it is probable that Deferred Pay, instead of being credited as at present, would have been applied to the payment of Superannuation Fund contributions.

2. Under these circumstances, it is thought that Officers will realize that the action which has been taken is in the best interests of the general body.

(A.30/21/24.)

162. EXPRESSION OF OPINION ON PUBLIC POLICY BY MEMBERS OF THE NAVAL FORCES.

Members of the Permanent Naval Forces are prohibited from making any statement to or for the press, or commenting publicly by speaking or in writing, upon matters of public policy, Naval, Military or Civil, without the written permission of the Minister for Defence. They are required at all times to use great discretion in speaking or writing of such matters.

Navy Order No. 116 of 1923 is hereby cancelled.

(G.N.232/1/8.)
(This Order will be reprinted for posting on Notice Boards.)

163. IRREGULARITIES IN SERVICE CERTIFICATES.

It has been observed from the recent inspection of Service Certificates of ratings serving in H.M.A. Fleet that sufficient care is not being exercised as regards the preparation of these documents and the entries made therein.

2. Attention is therefore drawn to the instructions regarding Service Certificates contained in Chapter XXI. of the King's Regulations and Admiralty Instructions.

3. The following is a list of errors, other than those mentioned on Form A.S. 453—Irregularities in Service Certificates—which are commonly made in these documents:

(a) Usual place of residence omitted.
(b) Particulars of next-of-kin omitted or illegibly written.
(c) Notation re ability to swim, or otherwise, omitted or not made in accordance with Navy Order No. 408 of 1922.
(d) Notation re issue of bedding omitted.
(e) Numbers on Ship's Books omitted.

On transfer from R.N. to R.A.N., character and ability not assessed on date of discharge from R.N., and suitable notation omitted from "Cause of Discharge" column on page 2 of R.N. Certificate.

(g) Assessment of ability of Stoker ratings without sea service, vide Article 831, Clause 11, K.R. & A.I. not complied with.
(h) Dates abbreviated otherwise than as authorized by Article 830, Clause 2, K.R. & A.I.
(i) History Sheets not completed (full name, official number, &c., omitted).
(j) Leave History Sheets (Form A.S. 539y) not inserted in all Service Certificates.
(k) Article 176 of Consolidated Navy Orders 1911-1920, re disposal of references, birth certificates, &c., not complied with. Other superfluous documents allowed to accumulate inside Service Certificates.
(l) Service Certificates not enclosed in Form A.S. 459a (Cover for Certificates of Service).
(m) Erroneous award and restoration of Good Conduct Badges. As the award of Good Conduct Badges is not subject to revision (vide Article 832, Clause 6, K.R. & A.I.) errors in this respect are of a serious nature.

(P.307/10/267.)

164. CAPS, BLUE CLOTH, WITH PEAK—IMPROVED PATTERN.

Approval has been given to the introduction of an improved pattern Blue Cloth Cap with peak for Classes I. and III., and stocks will shortly be available at Royal Edward Victualling Yard, Sydney. The present issuing price of the new pattern cap is 10s. 6d. each.

2. Until stocks of old Pattern Caps are exhausted it will be necessary to indicate on demands on Royal Edward Victualling Yard whether "New Pattern" or "Old Pattern" Cap Covers are required.

(S.411/6/26.)

165. CHIEF CLERK, DEPARTMENT OF DEFENCE—RE-CLASSIFICATION OF POSITION AND PROMOTION.

The limits of salary assigned to the position of Chief Clerk, 1st Class, Clerical Division, Department of Defence, to be—Minimum, £650 per annum; Maximum, £750 per annum. The salary of William Augustin Newman, Chief Clerk, Department of Defence, is increased to £650 per annum as from 22nd March, 1923.—(Ex. Min. No. 73.)

3. The recruiting capitation allowance is not payable to persons employed by the Department on recruiting work for the whole of their time, or who are carrying out the duties of "Recruiting Officer" at Naval Staff Offices.

(P.351/1/188.)

By direction of the Naval Board,

The Commodore Commanding H.M.A. Fleet, and Commanding Officers of H.M.A. Ships, Officers in Charge of H.M.A. Naval Establishments, and others concerned.

178. UNIFORM—ADHERENCE TO APPROVED PATTERN.

It has been brought to the notice of the Naval Board that there is a marked tendency on the part of a number of ratings to depart in small details from the authorized pattern of various articles of uniform not in the nature of underclothing. The attention of Commanding Officers and all other Officers concerned is therefore drawn to this wrong practice, and it is desired that the necessary steps be taken forthwith to cause all such articles of apparel to be strictly in accordance with the approved patterns.

2. All articles supplied from the Royal Edward Victualling Yard are in accordance with sealed samples in every respect, and reference to such articles will, in case of doubt, be sufficient for guidance.

NAVAL AGENT AT THURSDAY ISLAND.

Mr. J. J. R. Crawford, Sub-Collector of Customs, has been appointed Naval Agent at Thursday Island, vice Mr. M. Hackett transferred.

Navy Order No. 73 of 1923 is to be amended accordingly.

178.

ADVANCEMENT OF SICK BERTH RATINGS.

The following temporary arrangements for the counting of acting time for promotion in the case of R.A.N. Sick Berth ratings have been approved:—

2. Under Request No. 8 of the Welfare Committee, 1919, a rating qualified for advancement other than by service may be rated Acting in a vacancy.

3. At present, a Sick Berth Attendant may qualify for the rating of Leading Sick Berth Attendant after two years’ service, including time served as a Probationer, and is thus eligible for promotion to Acting Leading Sick Berth Attendant after two years’ service, if passed for the higher rating; being confirmed after one year’s service in the Acting rating.

4. Normally, a Leading Sick Berth Attendant must have completed two years’ service as such before being examined for Sick Berth Petty Officer. Acting time will now be allowed to count for this purpose. A R.A.N. Leading Sick Berth Attendant will thus be eligible to be examined for, and promoted to, the rating of Acting Sick Berth Petty Officer after one year’s acting and one year’s confirmed service in the leading rate, i.e., after not less than four years’ service from date of entry. An Acting Sick Berth Petty Officer will be eligible to be confirmed as such after two years, and, subject to passing the prescribed examination, will then be eligible for promotion to the rating of Sick Berth Chief Petty Officer.

(P.348/2/66.)

179.

DRAFTS PROCEEDING TO THE UNITED KINGDOM.

Attention is drawn to the importance of complying with orders issued for the drafting of ratings to the United Kingdom, and to the necessity for promptly acquainting the Commanding Officer, Flinders Naval Depot, of ratings found medically, dentally, or otherwise unfit for drafts.

2. All ratings on draft to the United Kingdom are, in future, to be medically examined on three occasions:—

(a) Immediately on receipt in Ships of Draft Notes, the result of examination being signalled to Commanding Officer, Flinders Naval Depot, at once;

(b) Five days prior to the date of embarkation; and

(c) On the morning of embarkation.

3. In the case of any rating who is found fit for draft at the first examination and is found unfit at the second or third examinations, particulars are to be immediately telegraphed to the Navy Office, and the Commanding Officer, Flinders Naval Depot.

ADDRESS INDICATING NUMBERS.

Pending the promulgation by Admiralty of a revised List of Address Indicating Numbers, the following allotments are to be added to Admiralty P.348/2/66.

181.

DRAFT NAVAL ACCOUNT REGULATIONS AND INSTRUCTIONS—AMENDMENT OF.

The following amendment of Draft Naval Account Regulations and Instructions has been approved:—

Article 130 is amended as follows:—

(1) by adding, at the end of clause (2), new paragraph as follows:—

"Further, the responsibility for the correctness of the award of additional pay upon the advancement or reinstatement of a rating, rests with the Accountant Officer, whose duty it is to check all alterations in rating, &c., authorized by the Captain, by which the pay of a man is affected."

(2) by inserting after the words "Assistant Paymaster" in the first line of clauses (6) and (7) the words "Warrant Writer."

(A.160/3/38.)

182.

"Shell" and "Plume" Motor Spirit.

The following Order, having been approved, is hereby promulgated for information and guidance, and necessary action.

186. Lower Deck Welfare Meetings, 1923.—Naval Board Decisions on Requests Submitted.
LOWER DECK WELFARE MEETINGS, 1922.—NAVAL BOARD DECISIONS ON REQUESTS SUBMITTED.

The Naval Board have had under consideration the Class and General Requests put forward by the Lower Deck Welfare Meetings 1922, in accordance with the provisions of Navy Order No. 130 of 1922.

2. A list of the requests submitted, together with Board decision in each case, is promulgated hereunder for general information.

3. Action has already been taken to give effect to those requests which are finally approved. A few requests are noted as still under consideration, and final decision on these questions will be promulgated by Navy Order as soon as reached.

4. With regard to the large number of requests dealing with questions of pay and allowances, the Board desire to draw the attention of Petty Officers and Men to paragraph 18 of Navy Order No. 130 of 1922, promulgating the procedure for the 1922 Welfare Meetings, in which they were reminded that requests involving large additional charges to the public funds could not be approved.

5. Many requests have also been put forward on questions of status, qualifications for advancement, rates and conditions of non-substantive pay, and dress. As has previously been announced, it is the general policy of the Naval Board that conditions in respect of such matters in the Royal Australian Navy should, as far as possible, be identical with those in the Royal Navy. Except, therefore, when local considerations render a modification necessary, requests which would create a material difference in the conditions of service between the two Forces cannot be approved.

**Signal and W/T Ratings—**

2. The Regulations stating that promotion of men passed for higher ratings depends upon their seniority should be more strictly adhered to as regards Telegraphist ratings.

3. That qualifying courses for Telegraphist ratings of the Fleet should be held at Garden Island, so that all ratings wishing to do so may attend and the examination be held more frequently.

**Signal and W/T Ratings—continued.**

4. (a) It is suggested that it would be of benefit both to the Service and to Telegraphist ratings if a series of lectures (not necessarily on service W/T) could be given at Garden Island so that all ratings may attend, and

(b) that further supply of literature dealing with W/T may be made available so that ratings can keep in touch with the recent developments of their work.

5. That more attention be paid to ratings having the necessary sea-time before being promoted.

6. Attention is drawn to the fact that no Commissioned Officer from Warrant rank has been made in the R.A.N. in the Signal and W/T Branches.

7. It is requested that the present system of promotion of Signal ratings be revised and that ratings receive promotion in the order in which they pass examinations if they have the necessary qualifications.

8. Request that the examination for the advancement of Stokers to Acting Leading Stokers be reduced to the simple four rules of arithmetic and the possession of an auxiliary watchkeeping certificate.

9. Request that Stokers who are rated Leading Stokers be required to pass Educational Test Part I. before proceeding to Depot for Mechanical Training Course.

**Decision.**

(a) Not approved. The Naval Board do not propose to alter the present Regulations in this respect.

(b) Approved. Lectures for W/T ratings will, whenever possible, be arranged.

Approved. Except in special circumstances no rating will be promoted unless he has the necessary qualification as regards sea-time.

Outside the terms of reference.

The general provisions of A.F.O. 1365/1922—Re-organization of the Signal and W/T Branches—have been adopted in the R.A.N. vide Navy Order No. 359/1922.

The standard of education required by K.R. and A.I. App. XV. has not been raised; it has by Navy Order No. 490/1921 merely been more closely defined for R.A.N. purposes. The Board do not propose to reduce the standard as at present defined, viz., 49 per cent. of educational Test, Part I.

The Naval Board do not propose to alter the present Regulations in this respect. As stated in Navy Order No. 222/1922, however, Stokers 1st Class and Acting Leading Stokers should be encouraged to sit for and obtain the Educational Test Part I. Certificate, viz., 75 per cent., before undergoing the Mechanical Training Course. The obtaining of this Certificate is regarded as the best educational preparation for the course, but possession of it is not obligatory, nor will it relieve a rating of the necessity for passing the educational examination normally held at the termination of the Mechanical Training Course.

See reply to General Request No. 2.
12. (c) The status of the E.R.A. Class is most unsatisfactory. We again submit the request for it is still desired to follow the pattern of the Mercantile Marine, where every sea-going Engineer is recognised as an Engineer and is called and treated as an Engineer. The Marine Engineer is the combination of the present Naval Engineer and the E.R.A. drawn solely from the same source as that from which the E.R.A. is drawn. He is what in the Navy is termed the mechanic necessary to maintain and repair the machinery of the Fleet; but he must also have a technical knowledge as well. The present Naval Engineer does not need to have manual skill as he utilized that of the E.R.A., and the E.R.A., realizing this, takes strong exception to the state of affairs. The greatest efficiency is obtained by the combination of manual skill and technical knowledge in one person, not in two separate persons. This is recognised by the Board of Trade and any Engineering Institution by the fact that they lay down in the necessary qualifications a term of apprenticeship. Now technical knowledge can be acquired, but apprenticeship must be served, and during the early period of one's life. The E.R.A. has his apprenticeship, and to no matter what trade he can always acquire the necessary technical knowledge at any period of his life to warrant his becoming a member of any Engineering Institution.

(d) What the E.R.A. wants is—The abolition of the joining up of Repatriation trainees, which is tending to reduce the present, though unsatisfactory status, All new entries to show that they have served at least five years at their trade. School to be started for imparting technical instruction commencing from time of entry and spreading over a period of three years, advancement being made according to proficiency shown.

(e) New entries to be entered as Assistant Engineers. These Assistant Engineers to have a relative rank of Warrant Officer, also to be called Engineer 4th, 3rd, 2nd, and Ist Class on promotion. By Board of Trade examinations, or by Civil Service examinations, open to all the above, all the specialist and administrative engineers are to be selected. The above to be the one and only method of entry into Naval Engineering.

13. During the War, the Admiralty entered a number of Electrical Engineers as Assistants to Torpedo Lieutenants, and we think that if such is necessary, opportunities should be granted to E.A.'s to qualify for same.

14. To be eligible for Mate (E.A.) after having obtained the necessary qualifications and the facilities given for a special course as in other branches of the Service.

15. That the time of advancement from one class to another be shortened and brought into line with the E.R.A.'s, making it possible to pass for Chief O.A. after being six years in the Service.

16. That the three V.P.O.'s and one L.V.A. recently arrived from the R.N. be immediately returned as there are R.A.N. ratings fully qualified and recommended for these three positions, who have been passed over on account of these ratings filling vacancies.

17. In the event of Request No. 16 not being approved, it is requested that all R.N. Victualling Ratings be kept on a separate roster, and that they make no difference to the promotion of R.A.N. ratings.
18. That Joiners, Painters, Blacksmiths, and Plumbers be granted the opportunity for passing, as Chief of their respective Branches and not be subject to the practically automatic system now in practice, and further that they be placed similarly to Shipwrights, thus:—That after seven years' service above 5th class (including period of acting time allowed to count) and having passed the necessary examinations and further have obtained three consecutive recommends, they be rated Chief of their respective Branches on a vacancy occurring (as for Ships)

19. Alternative to 18. The present system of advancement of these ratings be altered and that Plumbers and Joiners be rated Chief Plumber or Joiner after twelve years' service, 5th class, or above as is the case with Blacksmiths and Painters.

20. Chief rate for Artisan Branch—Plumbers, Painters, Blacksmiths, and Joiners, and whole to be combined as Constructive Branch and to be called Constructive Artificers. Take into account the fact that these respective Branches of the Shipwright Officers' Staff are skilled men, the majority serving apprenticeships equal in duration to that of all other mechanics in the service, and of as exacting a nature, and also that their work is of the same value to the service, and further that from entry they are accomplished mechanics, they should thus be given the Chief rate which will place them on an equal footing with all other mechanics who are but their equals in the labour market. The trade test can be made of as exacting a nature as for other mechanical ratings at present holding the Chief rate which besides securing a superior class of a mechanic will abolish an obvious distinction.

21. The Mate system for Shipwrights' Branch as for E.R.A.'s with whom we, as a class, rank equally. This concession has been granted to the Accountant Branch, and we ask why we are debarred from securing Ward Room representation, excepting through that practically automatic system of advancement openly condemned by the Naval Board and Admiralty. By the present system, it is only by the passage of years (at least ten from the time of being appointed to Warrant Rank) before Commissioned Rank can be obtained and in very few cases can the rank of Lieutenant be reached except at extreme old age, when retirement will be a necessity, there is absolutely no chance for the exceptional man to obtain recognition, but instead we are represented above our Warrant Rank Shipwright by Officers whose knowledge theoretically and practically must of necessity be limited.

22. That acting time be allowed to count for promotion.

23. That the qualifications of Mate (a) be promulgated.

24. That a reduction be made in the entry of Paymaster Cadets to enable the Mate scheme to come into operation.

25. That a Master-at-Arms be appointed to Ships in Reserve.

26. When a rating is granted permission to sit for an examination for promotion before completing the necessary time, that the same privileges be granted to all ratings who are senior to him.

27. That Sick Berth Attendant obtaining "V.G." in all subjects when being examined for Leading Sick Berth Attendant be not required to sit for an examination to qualify for Sick Berth Petty Officer.

28. That Sick Berth Attendants be required to get in requisite sea-time before becoming eligible to pass for higher rating.

Facilities to be given to enable this to be carried out.
Sick Berth Ratings—continued.

29. That promotion to Sick Berth Staff be by roster, and that it be strictly adhered to, as this is not being carried out.

Officers’ Stewards and Cooks—

30. That Probationary Officers’ Cooks be rated Officers’ Cooks III, on passing examination and receive pay of an Officers’ Cook III.

31. That qualifying time for confirmed leading rate be reduced to three years in the case of specially recommended men.

32. That there be more Officers’ Chief Stewards and Cooks than there are at present.

33. That all pensioners be discharged to facilitate promotion.

ACCOMMODATION.

Seamen—

34. That more bathing accommodation be provided for Seamen and ratings using Seamen’s Bathroom bearing in mind that 33 per cent. of Ship’s Company use this particular bathroom.

Signal and W/T Ratings—

35. It would be of great benefit to the health of Telegraphist ratings if the ventilation of W/T offices was made more efficient. When in a hot climate it is impossible for the Telegraphists on watch to keep in a fit alert condition for the efficient reception of signal in W/T offices as they are at present. One solution would be to erect a Receiving Cabinet on the Upper Deck.

E.R.A.’s—

36. E.R.A.’s in Jervis Bay and Garden Island to have separate Mess as in K.R. and A.I.

37. E.R.A.’s baths and workshops in Cruisers to be better ventilated. Present system is inadequate.

38. An electric fan for the E.R.A.’s messes in Cruisers.

Electrical Artificers—

39. We respectfully submit that the accommodation at present provided for Electrical Artificers is not in accordance with the standard, or class of men joining as Electrical Artificers, also that cabin accommodation be provided, one to four in a cabin, and that suitable bathing accommodation be provided.

Shipwrights and Artisans—

40. That inquiry be made to ascertain whether it is possible to erect a shop for the Shipwright Staff in ships of the R.A.N., bearing in mind that without a shop there is great difficulty in looking after valuable tools. This would not need a large space, one bench only being necessary, as it would be used for small or ornamental work, and would also provide safe custody for the Artisan’s tools, and a place to work in wet weather (the latter point especially will justify the request).

Regulating Branch—

41. That suitable place be allowed for Master-at-Arms and Staff to work. At present no place is provided.

Ship’s Cook Ratings—

42. That all cook ratings below Petty Officer Cook live in one Mess, such Mess to be as near the galley as possible.

43. That on all ships that have sufficient lockers, the cooks be provided with a locker before other ratings in Class 2 rig.

MESSING.

Electrical Artificers—

44. We further submit that the present system of messing is not conducive to the status, even of a Chief Petty Officer, and instead of Seamen and Stokers being detailed as Messmen, that a system of stewards be introduced.

Ship’s Cook Ratings—

45. That the present system of Ship’s Cooks washing the Mess Traps be abolished, and to revert to the old method of each Mess Cook doing his own Mess Gear.

Sick Berth Ratings—

46. That the Sick Berth Attendants at Flinders Naval Hospital be messed in an enclosed Mess. This privilege is enjoyed by Officers’ Stewards.

47. That Sick Berth ratings serving in a ship not equipped with a Sick Bay or with a small Sick Bay only be granted some privilege as Writers and Victualling Staff as regards Messing.
Request.

**Officers’ Stewards and Cooks**—

48. Owing to Officers’ Stewards and Cooks being on General Mess, it is found that the meal hours clash with Officers’ meals, therefore requested that Stewards and Cooks be messed from Officers’ Mess.

**UNIFORM AND CLOTHING.**

**Seamen**—

40. That a better quality of oilskin be provided both for issue and loan.

50. That Sennet hats be abolished in the R.A.N.

**Stokers and Mechanicians**—

51. Request that Stokers be allowed to purchase Blue Jean Suits from Ship’s Store for use when not actually steaming.

52. Request that Duck suits be abolished for Stoker ratings; Blue Jean suits being substituted.

53. Request that Boiler Party be issued with working suits, as Double-Bottom Party are at present.

**E.R.A.’s**—

54. A distinguishing cap badge to be worn by E.R.A.’s. It is pointed out that the cost of this change in uniform is borne entirely by the E.R.A.’s themselves, and it is no expense to the Government. At present there are a number of ratings not E.R.A.’s or other ratings in similar dress who are wearing no badge. We ask for a revision of the order regarding the wearing of badges.

**Electrical Artificers**—

55. We respectfully submit that all Chief Petty Officers be given the privilege of wearing civilian clothes on leaving or returning to a ship.

**Shipwrights and Artisans**—

56. Overalls for use in Paint Shops—same as Double Bottom Painters.

57. That Shipwrights and Chief Artisans be permitted to wear three gilt buttons on the sleeve, the Chief Shipwright wearing a thin distinguishing string (silver grey).

**Ships’ Cook Ratings**—

58. That an Overall Suit be part of a Cook’s Kit, same to be worn whilst on duty in scullery, coaling galley, or doing any such dirty work.

Decision.

**Officers’ Stewards and Cooks**—

9. Officers’ Stewards and Cooks may be victualled from the Officers’ Mess, if they so elect, and the Officers concerned have no objection. *See Navy Order No. 92/1923*.

10. Request whether decision has been arrived at re distinguishing badges for Officers’ Stewards and Cooks. Present suggestion is gold intermingled with a silver star.

**DEFERRED PAY.**

**Vicualling Ratings**—

64. That the decisions of the Naval Board regarding Navy Order No. 430/1921, Request No. 65, be strictly adhered to.

65. That R.N. Victualling ratings be returned to R.N. immediately after their engagement expires instead of being allowed to re-engage for a further period in the R.A.N., as they are at present allowed to do.

**Shipwrights and Artisans**—

66. That men occupying shore billets whose engagements have terminated, be either compelled to sign a definite agreement or be drafted to a Sea-going Ship, and be replaced by Active Service ratings who, after years of Sea Service, have no chance of getting into shore billets.

**Sick Berth Ratings**—

67. That all R.N. ratings on loan to R.A.N. not be advanced to a higher rating while serving in the R.A.N. unless made by R.N. and then borne in excess of R.A.N. complement, and that no more R.N. Sick Berth ratings be engaged in the R.A.N.

**TERMS OF ENGAGEMENT.**

68. That recent decisions of Naval Board in regard to discharge of Pensioners and Sick Berth ratings over the age limit be strictly adhered to.
PAY AND ALLOWANCES.

69. That in view of the responsibility attached to non-sub. ratings of Torpedo Coxswain and the High Standard of efficiency required of these ratings the pay for T.G.M. be increased to 2s. per day.

70. In view of the fact that P.O.'s are called upon to perform Regulating duties it is requested that their pay (flat rate) be brought up to the rate prevailing for the Regulating Branch, bearing in mind that the Seamen P.O.'s have first to qualify in either gunnery or Torpedo and at the same time re-qualify for the same and then gets paid as a Seaman Gunner in the flat rate 9s. per day, making a difference of daily rate of 1s. against the R.P.O.'s 10s. flat rate.

71. Request that Able Seamen passed for Leading Seamen be paid progressive pay at twelve months.

72. That pay of Seaman C.P.O.'s be increased 20 per cent. The pay of Seamen C.P.O.'s is the same as that of Chief P.O. Steward; the qualifying time for C.O.'s is much shorter than that for executive C.P.O.'s. Executive C.P.O.'s have to pass examinations for the rating of A.B., L.S., and P.O., while a Chief Officers' Steward gets his rating automatically.

73. That C.P.O.'s and P.O.'s be paid for non-sub. rating of F.G. and S.T.

74. That in view of the mechanical training and professional work of Seamen Divers, and the value of the work actually performed by them, it is requested that in future the ratings of Divers 1st Class and 2nd Class shall embody ratings of Art, Diver 1st and 2nd Class with the same rate of pay and allowances. It is trusted that the past record of successful work carried out by Seamen Divers will prove them worthy of this recognition.

75. That the pay of non-sub. ratings PR.T.I. be increased 100 per cent. The pay of 2nd Class P.R.T.I. would then be equal to that of G.M. and T.G.M. P.R.T.I. 2nd Class has to hold that rating for three years before he is eligible to qualify for P.R.T.I. 1st Class, and even then only a very high percentage of points will qualify him for 1st Class Certificate.

76. That the pay for Non-sub. rating G.M. or T.G.M. be 2s. per day.

Signal and W/T Ratings.

77. Attention is again called to the state of the W/T offices of the Fleet, in hot weather. It is requested that Telegraphist ratings employed therein should be paid Tropical Allowance at the Captain's discretion.

78. It is requested that pay of Signal and Telegraphist ratings should be on the following scale until the report of the Commission, understood to be sitting in England on matters appertaining to the Signal Branch, be received:—

Sig. or Tel., same as A.B., S.T.
Ldg. Sig. or Ldg. Tel., same as Ldg. Snm. L.T.O.
Yeo. or P.O. Tel., same as P.O., T.G.M.
Ch. Yeo. or C.P.O. Tel., same as C.P.O., T.G.M.

Further it is requested that details as to when this Commission commenced and when it is likely to finish be obtained from the Admiralty and published.

79. In addition to Request No. 78, it is considered desirable and more just for Telegraphist and Signal ratings to be paid on the same plan as Seamen, i.e., to be paid for their rank, and in addition for their qualifications.

80. It is requested that the pay of Signal Boys and Boy Telegraphists on Sealing Ships be increased so as to equal that of Writer and Victualling Boys.

81. It is requested that on a Boy in the Training Ship passing the necessary examinations to authorize him wearing a Signal or Telegraphist’s Badge, he be paid 3d. per day for same.

82. As the senior W/T rating in a ship is usually held responsible for the custody of W/T stores, it is requested that he be paid 6d. per day Store Money for the anxiety and vigilance this entails.

83. It is pointed out that the promotion from Signalman or Telegraphist to Leading Signalman or Leading Telegraphist only increases pay 1s. 3d., or from Leading Signalman or Leading Telegraphist H.S. to Yeoman or P.O. Tel. 10d. per day, which is not considered sufficient to induce desire for promotion.

83. Request that they may be granted an allowance of 1s. per day, both on obtaining A.B.C. and D. Certificates and Charge Certificate, or as an alternative to the first, an allowance of 1s. per day on confirmation if an efficient tradesman. In support of this request, while admitting that our position in the Service was originally intended to be principally as Watchkeepers, and also admitting that our knowledge as tradesmen is gained while in the Service, we contend that this is equally applicable to the E.R.A.'s knowledge of Watchkeeping, yet the E.R.A. is granted an allowance on reaching a certain standard of efficiency in Watchkeeping, which consideration we now ask also be applied to the Mechanicians, their responsibilities being identical and their abilities equal to the Engine Room Artificer.

86. Request that Stokers be paid at rate of 3d. per day for Auxiliary Watchkeeping Certificate

87. Request that Stoker Petty Officers be granted an allowance of 6d. per day on obtaining Stokehold Watchkeeping Certificate.

88. Request that Double-bottom Allowance be increased 100 per cent.

89. Request that Navy Order be reconstructed and that all men employed in Boiler Drums be paid Double-bottom Allowance.

90. Request that all Engine Room ratings be paid an extra amount of Clothing Allowance for upkeep of working clothes

Not approved. The qualifications of Mechanicians are obtained entirely at the expense of the Service and it is not considered that Mechanicians, in the early years of their service, can claim the same rates of pay as E.R.A.'s of similar service. It is further considered reasonable that, as at present is the case in the R.N. and R.A.N., the rates of pay of Mechanicians should be based on the promotion rate of Chief Stoker. In regard to the comparison between Chief Stoker and Mechanician, it is pointed out that the Mechanician is advanced at a comparatively early age and thereby becomes eligible for Warrant Rank. The Chief Stoker's duties are in most cases equally responsible.

The Board have been in communication with the Admiralty on the subject of allowance for Mechanicians similar to those payable to E.R.A.'s. The Admiralty have definitely decided against the introduction of the allowance for Mechanicians in the R.N., and in view of this, the Board are not prepared to introduce such an allowance in the R.A.N.

91. The pay of E.R.A.'s compares very unfavorably with the pay of our trades outside the Service, making no incentive for a tradesman outside to join the Service. The Federal trade award to fitters is £6 6s. 6d. per week (£1 1s. 1d. per diem). The pay of an E.R.A. I.V., including active pay, ratings and deferred pay is 16s. per diem. We ask for a substantial increase on our active pay to compare more favorably with our trade award outside.

92. E.R.A.'s to be paid for Charge Ticket on obtaining same

93. E.R.A.'s to be paid dirt money for working in confined spaces, i.e., Condensers, Boiler Drums, &c.

94. We wish for a better financial inducement to sit for promotion to Warrant Engineer. A comparison of pay as shown:—

A Chief E.R.A. of twelve years' service and two children gets 24s. 1d. per day. A Warrant Engineer after three years as such gets 23s. per day. The position of Warrant Engineer is therefore lacking in inducement.

Electrical Artificers—

Not approved. The Electrical Artificers are recruited from Electrical and Engine Fitters and Turners and Instrument Makers. The repair and upkeep of the modern ship embrace a working knowledge, both electrically and mechanically, of all these trades and such Electrical Artificers, to be perfect, must be versatile, keen, and a clever mechanic. The diversity of work entailed in the repairs to Torpedoes, Motors, Dynamoes, &c., the minute and intricate workings of the Gyro Compass, Measuring Instruments, Motors, &c. His electrical knowledge after his graduating course must be kept up-to-date with all improvements, not only in his own ship, but with all the latest developments in electrical torpedo and gunnery line. In his own time and individual study he has

(a) Unless the Admiralty, in connexion with the re-organization of the Torpedo and Electrical Branches, decide to extend to Electrical Artificers allowances similar to those paid to E.R.A.'s, it is not intended to depart from existing Regulations so far as the R.A.N. is concerned.

(b) Electrical Artificers are eligible to be paid Tropical Pay when employed under the same conditions as laid down for this allowance for Engine-room and Cook ratings.

(c) Dirty Suit Allowance has been abolished in the R.N. Kit Upkeep Allowance is intended to provide for working clothes.
to qualify periodically, thus proving his knowledge and fitness to keep his class rating. In his electrical knowledge, the efficient working of electrical machines, Torpedo and Gunnery depends to a great extent. Previous to the Jerram Committee the Electrical Artificers, as to pay, &c. was identical to the E.R.A. (on entry he has a Trade Test and a Higher Educational Test than the E.R.A.). The Electrical Artificer Branch was not so strongly represented on this Committee as the E.R.A. Branch and since the findings of the Committee are very marked. The E.R.A. was awarded efficiency pay, i.e.

Stokehold Ticket
Engine-room Ticket

Differences of pay between C.E.R.A. and C.E.A., 2s. per day. The E.A. has to qualify and re-qualify in the four classes to C.E.A., and receives no proficiency pay or charge pay. Considering that E.A.'s take sole responsibility for particular part of the ship he is employed on either electrical or torpedo, and the C.E.A. has charge of all branches of work, viz., Torpedo, Electrical, Gunny, and Gyro Compass, we respectfully submit that the claim for similar recognition as to pay be granted as in the E.R.A. Branch, viz.:

(a) That the E.A. be granted 1s. per day after confirmation and the C.E.A. 1s. per day charge pay on being rated

(b) That E.A.'s be paid 1s. per day Tropical Pay at 8s. or in harbor under the same geographical conditions as at present;

(c) that 10s. per quarter be paid for Dirty Suit Allowance as paid in the Royal Navy.

O.A.'s and Armourees—

96. That in Ships or Establishments where a Chief O.A. is allowed and none carried, the senior Ordnance Artificer be paid Chief O.A. pay for doing Chief O.A.'s duties

97. That Ordnance Artificers or Armourers be not detailed for Instructional Duties or that if so detailed they be paid 1s. per day while performing that duty

98. That Armourers' Crews' and Mates' pay be advanced to come into line with IV. and III. Class Joiners, &c.

This is already provided for, under the conditions of Article 9a. Financial Regulations (Sea-going), provided real and definite responsibilities are involved

Not approved. Instructional duties are looked upon as part of the ordinary duties of the higher ratings of the Ordnance Branch

Under consideration

Shipwrights and Artisans—

99. Proficiency Certificates to be granted to all Mechanical and Artisan ratings, on the ground that many exceptional mechanics who are not sufficiently educated to pass for Warrant Rank, and that vacancies for Chief are so limited, they be given opportunity by examination to prove their efficiency, and by doing so, receive the extra pay—say one shilling per diem—which their services merit. The recognition of the efficient worker, and payment by results is advocated by the National Government. Besides giving an opportunity for additional pay possessed by the E.R.A.'s, it will stimulate zeal for the Service, and in a small measure will introduce a beneficial system of payment by results, as such a certificate could be made forfeit on a lowering of standard becoming apparent in the individual concerned. It cannot be pointed out, as was done in one case, that these men are not qualified mechanics on entry

100. That the Pay Book as used in the Army be introduced into the Navy. It is a long outstanding complaint that the system of payment in the Navy leaves much to be desired, and again it is common knowledge that considerable knowledge that considerable uncertainty exists in endeavouring to calculate what money a rating is entitled to. This should not be and the fault will be eliminated and each man will have a definite record of what money he has to draw. After all, it is perfectly just that he should do so, and therefore I ask that the unsatisfactory system at present be abolished

101. Tool Money for Shipwrights and Joiners. This concession has been applied for previously and turned down, but we feel that if this claim is submitted fairly and attention given in considering the same it will be seen to be perfectly just. In the first place the tools carried by these ratings represent a considerable sum of money, but this is not all the initial—is not the final outlay by any means. The particular tools used by the Shipwrights and Joiners are by their very nature of the work on which they are employed undergoing a constant and rapid deterioration which same fact cannot be contended for any other class of tools. The bit which can be ruined by meeting a single nail or foreign substance in the wood which it bores costs at the least Two shillings to replace, and it is common knowledge that this is a frequent occurrence. All sharp-edged tools, besides the wearing down due to the constant sharpening on grindstone and oilstone, have often to be replaced by 1/4-inch or more through meeting with nails

Not approved. It is considered that the present rates of pay of Artisans should enable them to provide themselves with any tools required which are not supplied by the Service

See General Request No. 54
MISCELLANEOUS.

Chief Petty Officers of the various Branches are now placed in the table of ratings in Appendix XV., K.R. and A.I., alphabetically. The position on the table has no bearing as regards seniority. Seniority of ratings as regards rank and command is clearly defined in Article 218, K.R. and A.I. (K.R. 16).

Tools granted to Torpedo ratings will be issued by the Torpedo School on qualifying, vide Consolidated Navy Orders 1911-20, Article 103, as amended by Navy Order No. 54/1923.

Sleeping accommodation in H.M.A. Ships has been the subject of much consideration, and it is found that, in view of the limitation of space, no further material improvement is practicable. Approved in principle, but it is considered impracticable at present to carry this into effect.

E.R.A.'s—

118. All candidates for rating of E.R.A. to show indentures for at least five years. It is pointed out that if the pay be made more favorable with trade awards outside a better class of tradesmen will present himself for entry, thus causing the hazardous entry of anybody professing themselves as tradesmen, which has been taking place recently.

See reply to Class Request No. 128.
Approval has been given for certain alterations and additions to the list of tools used by Artificer ratings, vide Navy Order No. 125/23.

**Approval, except when urgently required for other duties, and providing their Ordnance duties do not preclude them from obtaining such experience in the duties of their substantive ratings as is necessary for their advancement.**

It is important both from the point of view of efficiency and for the comfort of the ship's company that "coaling ship" should be regarded as an evolution and completed in the shortest possible time. Consequently every available rating must be utilized in this work.

Any Victualling ratings who are required by the Accountant Officer for necessary Victualling duties during "coaling ship" may, however, be excused.

Approved, vide Navy Order No. 359/1922.

GENERAL REQUESTS.

PROMOTION.

1. That, owing to the limited outlook for the lower deck ratings for promotion in the future, priority be given where possible to this class of advancement for all vacancies occurring

2. That all pensioners be discharged forthwith, being compensated for the breaking of their contracts

3. In the event of the Naval Board being unable to grant Request No. 2, request that pensioners be removed from the promotion rosters of the R.A.N., and that no more be allowed to re-engage

4. That where men passed for a higher rating are in ships in which they cannot be promoted owing to no vacancies occurring, they may be drafted to ships with vacancies

5. That the Royal Navy ratings on loan to the R.A.N. be not advanced to a higher rating while serving in the R.A.N. unless so advanced by the R.N., and that they be then borne in excess of the R.A.N. complement

See reply to General Request No. 2

This is a matter of policy, and as such is not one which can be dealt with as a Welfare Request

The following is the policy of the Naval Board with regard to the engagement and re-engagement of R.N. ratings, and pensioners:

(a) Subject to numbers required being available locally, R.N. ratings will not be engaged on loan, and loan engagements will not be extended if such extension is likely to retard the promotion of R.A.N. ratings

(b) There are no pensioners on the promotion roster. As stated in reply to 1921 Welfare Request No. 63, the Naval Board will discontinue the employment of pensioners, where their retention blocks the promotion of R.A.N. ratings, as soon as qualifications of the R.A.N. ratings (not pensioners) are available. There are very few pensioners now serving, and unless exceptional circumstances render it necessary, the present engagements of these ratings will not be extended

(c) The opportunities of advancement for all ratings, whether R.A.N. or R.N., under the prescribed Regulations, must be preserved. When it is necessary to obtain ratings on loan, however, every endeavour is made to ensure that junior ratings only in the various grades are accepted, in order that interference with the flow of R.A.N. promotion may be reduced to a minimum

See reply to General Request No. 2

This request has been noted for consideration when the representation of the present engagements of these ratings will not be extended.
ACCOMMODATION.

Arrangements have been made for the supply of heating stoves for Canteens, Recreation and Reading Rooms.

Approved. This has already been done.

The necessity for provision of space for study is recognised, but in the ships now available, space to be kept solely for this purpose cannot be provided.

Not approved.

It is considered to be impracticable to effect any material improvement in the ventilation in H.M.A. Ships now available.

Not approved.

There are now only two shore establishments, viz.:—

1. R.A.N. College—Corticene is already provided.

2. Flinders Naval Depot—Corticene is considered unsuitable.

No alteration of existing arrangements is considered necessary.

REQUEST.  

6. That any rating who accepts his discharge and then rejoins the R.A.N. at any time in the future, be placed at the bottom of the roster for promotion.

Decision.  

Not approved. In view of the fact that the present Regulations provide for the adjustment of the seniority of men who re-enter in respect of the period during which they have been out of the Service, and the fact that, before advancement, they must be recommended by the Commanding Officer of a sea-going ship in which they have served after re-entry, it is considered that the proposal in this request would unduly penalise these ratings.

7. That efficient heating arrangements such as Canadian stoves or electric radiators be provided in dormitories, reading and recreation rooms in shore establishments.

Decision.  

Not approved. In view of the fact that the present Regulations provide for the adjustment of the seniority of men who re-enter in respect of the period during which they have been out of the Service, and the fact that, before advancement, they must be recommended by the Commanding Officer of a sea-going ship in which they have served after re-entry, it is considered that the proposal in this request would unduly penalise these ratings.

8. That a chest of drawers and bedside chair be provided for all P.O.'s in shore establishments.

Decision.  

Approved. This has already been done.

9. That the chairs and armchairs for use in C.P.O. and P.O. messes and recreation rooms previously approved be supplied.

Decision.  

Approved. Attention is directed to Consolidated Navy Orders, Articles 302, clause 2, providing for the replacement of mess utensils at least once every three months.

10. That all C.P.O.'s messes and P.O.'s messes in R.A.N. Ships be upholstered as is done in the R.N.

Decision.  

Not approved. The present allowance is regarded as adequate.

11. That increased bathing arrangements be provided for seamen and ratings using the seaman's bathroom in ships bearing in mind that 33 per cent. of the ship's company use this bathroom.

Decision.  

Approved. Attention is directed to Consolidated Navy Orders, Articles 302, clause 2, providing for the replacement of mess utensils at least once every three months.

12. That a space fitted and kept for the purpose of study, be provided in ships.

Decision.  

Not approved. The present allowance is regarded as adequate.

13. That the ventilation of mess decks in ships and destroyers be improved. At present the ventilation is practically nil, and when ports are closed due to weather conditions.

Decision.  

Not approved.

14. That cabin fans be allowed in enclosed messes.

Decision.  

Approved.

15. That floors in dining rooms, dormitories and recreation rooms in shore establishments be covered with corticene.

Decision.  

Approved. In view of the facilities which already exist, it is not considered desirable to establish a Welfare Committee in each ship and establishment.

16. That, in shore establishments, pantries fitted with sinks, shelves, cupboards and bread lockers be fitted in all messes, and also that one hot press with at least three shelves be provided for each separate mess.

Decision.  

Approved. Consolidated Navy Orders, Article 302, clause 2, providing for the replacement of breakages of mess utensils due to stress of weather, &c.

CANTEN AND MESSING.

It is not considered desirable to establish a Welfare Committee in each ship and establishment.

17. That hot-water jacket dishes be provided in ships to keep warm the meals of watchkeepers.

Decision.  

Approved.

18. That in shore establishments, a platform about 9 inches high be built around recreation rooms for the seats to be placed on, and that strips of coconutt matting be provided for the floor at the ends and sides of billiard tables.

In view of the facilities which already exist, it is not considered desirable to establish a Welfare Committee in each ship and establishment.

19. That a body on the lines of this Welfare Committee be formed in each ship or shore establishment to meet periodically to discuss matters affecting that ship or establishment.

Decision.  

Approved where satisfactory arrangements for separate Wet Canteens can be made by the Commanding Officers concerned. This decision is, of course, only applicable to Shore Establishments in which a Wet Canteen has been specially authorized by the Naval Board.

20. That the control of (under the Commanding Officer) and the profits accruing from the sale of beer in Wet Canteens be in the hands of the respective Chief Petty Officers and Petty Officers and Ship's Company Messes according to the consumption thereof.

Decision.  

The Board do not propose to alter their previous decision in regard to messing.

21. That all Chief Petty Officers and Petty Officers' Messes be allowed a messman by the Regulations as in E.R.A.'s messes.

Decision.  

Approved. Attention is directed to Consolidated Navy Orders, Articles 302, clause 2, providing for the replacement of mess utensils at least once every three months.

22. That mess breakages and shortages for broadside messes be replaced quarterly.

Decision.  

Not approved. The present allowance is regarded as adequate.

23. That the allowance for mess traps in Chief Petty Officers' and Petty Officers' messes be increased by 100 per cent.

Decision.  

Approved. Consolidated Navy Orders, Article 302, clause 2, providing for the replacement of breakages of mess utensils due to stress of weather, &c.

24. That all ships and particularly destroyers be allowed special replacements of mess utensils after being at sea in rough weather.

Decision.  

Approved. Attention is directed to Consolidated Navy Orders, Articles 302, clause 2, providing for the replacement of breakages of mess utensils due to stress of weather, &c.

25. That mess shelves in ships with central pantry scheme be abolished and small lockers fitted in lieu, placed as low as possible so as not to interfere with hammocks and so provide additional sleeping places.

Decision.  

Approved. Attention is directed to Consolidated Navy Orders, Articles 302, clause 2, providing for the replacement of breakages of mess utensils due to stress of weather, &c.
UNIFORM AND CLOTHING.

Request.

27. That all Petty Officers on promotion be dressed in the rig now worn by Petty Officers of four years seniority, thus doing away with the distinction between Petty Officers doing the same work.

28. That blue cloth caps be adopted for winter routine in the R.A.N.

29. That singlets and short underpants of both light and heavy types be made available for issue.

30. That the uniform of all Chief Petty Officers be the same, viz., three gilt buttons on the sleeve.

31. That ratings taking their discharge be permitted to take up one suit length of diagonal serge on repayment.

32. That a better type of oilskin than the "Pegamoid" be provided both for loan and issue.

33. That the bennett hat be abolished in the R.A.N.

34. That, when a rating is promoted to Leading Seaman or from Leading Seaman to Petty Officer, the first issue of badges be gratuitous following on scheme of A.W.O. 2691/19 para. 3.

35. That a two-piece blue jean suit be adopted as the working rig in the R.A.N.

36. That a better class of duck be made available for duck suits.

37. That coats, trousers and waistcoats in ready-made suits issued by the Victualling Yard be issued separately.

38. General dissatisfaction is felt at the make and finish of ready-made clothing, and it is requested that steps be taken to remove the cause of this complaint.

DECISION.

Under consideration.

Not approved. It is not proposed to make any change in the present rig for the R.A.N., i.e., white caps will continue to be worn throughout the year.

In the event of H.M.A. Ships serving abroad, where there is a possibility of their being in company with ships of the R.N., while in winter routine, provision will be made for a special issue of cloth caps.

Approved. Supply will be made available for issue as soon as practicable.

Not approved. Existing Uniform Regulations must be adhered to.

Approved for ratings taking their discharge to be allowed to take up one suit length of diagonal serge or No. 3 serge, on repayment, providing ship's stocks permit of the issue being made without detriment to the requirements of the remainder of the ship's company. vide Navy Order No. 99/1923.

An improved style of waterproof coat for ratings will be made available for issue as soon as stocks can be obtained. The "Pegamoid" pattern oilskins will, however, be retained for issue on repayment as at present. The type of oilskin coat for issue on loan only is under consideration.

Approved, vide Navy Order No. 363/1922.

A similar request has been put forward by the R.N. Welfare Committee for 1922, and is under consideration by the Admiralty. Any change in existing Uniform Regulations for the R.N. will be adopted in the R.A.N. In the meanwhile this request is not approved.

Approved. A supply of linen duck will be made available as soon as practicable.

Approved. Action has already been taken in this direction.

Deferred Pay.

Request.

39. It is assumed that deferred pay is not actual pay, but more of the form of a bonus equivalent to the R.N. pension as being a reward for continuous service. It is desired that it be increased to the following rates so as to be at least equal in amount to the pension as given in the R.N.:

- Ordinary Seaman 1s. 9d. per day
- Able Seaman 2s. 2d. per day
- Leading Seaman 2s. 7d. per day
- Petty Officer 3s. 1d. per day
- Chief Petty Officer 3s. 8d. per day

Good Conduct Badges 1d. per day. G.C. Medal 1d. These rates are arrived at by the following method:

The least pension given by the R.N. for 22 years' service is 3s. per day, or £54 15s. per year. To purchase an annuity at the age of 40 years of age of £54 15s. would cost £1,010 at the present rate of £100 for an annuity of £5 8s. 6d., and probably more when the rates of interest fail. To total this sum of £1,010 it is necessary to put on one side £31 4s. per year at compound interest at 3% per cent. for 22 years, i.e., the lowest rate of deferred pay should be £31 4s. 10d. per year, or 1s. 9d. per day, if it is to be equivalent to the lowest rate of pension given in the R.N.

Likewise fifteen years is a good estimate of the average time as Petty Officer, a man of usual abilities may be expected to have in the course of his 22 years' service, and to make this deferred pay equivalent to the Admiralty pension of 4s. 3d. per day it is necessary for his deferred pay to be increased by 1s. 4d. per day. The deferred pay for other ratings is similarly arranged. It is pointed out that extra pension is allowed for Good Conduct Badges and the Good Conduct Medal in the R.N., whereas no deferred pay is at present allowed for this in the R.A.N.

40. That R.N. ratings who continue to serve in the R.A.N. and do not re-engage in the R.N. for pension be refunded amount of deferred pay in respect to pension.

Not approved.
 TERMS OF ENGAGEMENT.

Request.

41. That the term of re-engagement be three years or more as desired, noting that the R.N. ratings on loan are allowed to re-engage for 12 months.

42. That on re-engaging for three years, fourteen days' leave be allowed and for more than three years 28 days.

43. That a Gratuity equal to three months' pay and allowances be paid on re-engaging after completing twelve years' service.

PAY AND ALLOWANCES.

44. That pay for Good Conduct Badges be increased to 6d. per day.

45. That progressive pay for all ratings be increased to sixpence per day.

46. That (a) the pay of A.B.'s and equivalent ratings be increased by One shilling per day, (b) the pay of all ratings in advance of A.B. be increased to correspond with that proportional increase obtaining in the Royal Navy. It is pointed out that deferred pay is not actual pay but a form of bonus equivalent to the pension in the R.N. The above increase is required for A.B.'s to enable them to meet the high cost of living which exists, despite the reports of a fall. Further, the increase for higher ratings is required to maintain their status in the R.N.

47. That the Marriage Allowance be put on a permanent basis for a period of five years and not treated as a concession.

48. That the allowance for each child be increased to One shilling per day.

49. That all shore establishments be paid weekly.

50. That the Victualling Allowance while on leave be increased to Five shillings per day. The tariff at the Royal Naval Home, Sydney, is as follows:—Bed 1s., breakfast 1s. 6d., dinner 1s. 6d., tea 1s. 6d., total 5s. 6d.

51. The following scheme for Acting Schoolmasters is suggested:—

(a) Ratings to qualify for the non-substantive rating of Assistant Schoolmaster by results in Higher Educational Test.

(b) The rating to be open to all branches of the Service.

(c) Assistant Schoolmasters to be paid 1s. 6d. per diem while performing their duties.

(d) Ratings to be drafted to ships not carrying Schoolmasters.

(e) Ratings to perform the duties of Assistant Schoolmaster in addition to their ordinary duties. The above scheme is required so as to provide Acting Schoolmasters in ships not carrying a Schoolmaster capable of assisting other men in the work required for the H.E.T.

52. That where desired allotments may be paid into a Savings Bank Account.

53. That the sick allowance while on shore be made 6s. per day plus doctor's bill or that the Naval Board pay all hospital and ambulance charges.

54. That the pay books as issued at present be made an official record and entries made by the Paymaster's Staff so as to enable money to be drawn by their use on joining a new ship and when pay sheets are delayed. This was the meaning of the original request and the present books could be used so as the pence column were used for the Paymaster's signature as is done in the Army.

55. That the rating of Boxing Instructors be abolished, realizing that they are useless as a fighting unit in ships. The present rating of P. and R.T.I. due to his service training is quite capable of carrying out both duties as in R.N.

56. That Boxing Instructors who have existing engagements be not allowed to wear the distinguishing badges of P. and R.T.I.

57. That Watchkeepers' leave be extended to one hour before going on watch, observing that other ratings in the majority of cases work watch and part ashore.

MISCELLANEOUS.

58. Not approved. Existing arrangements are considered adequate.

59. Under consideration.
58. That hours of leave be made the same for all ships

59. That railway concessions be allowed to Naval ratings travelling on long leave observing that certain Government employees and sports bodies enjoy this privilege. Also request that two free railway warrants be issued to Officers and ratings per year following the example of scheme in A.W.O. 171/22—10.3.22. Attention is drawn to the New Zealand Navy where all ranks and ratings receive a pass for the whole of the year for themselves and their wives. It is stressed that the fact that the nature of their employment necessitates many men having to pay considerable sums themselves annually in order to reach their homes, operates with great hardships on those concerned, many of them having to forgo their visits on this account. Furthermore a man cannot choose the time he goes on leave so as to suit his finances. If the Naval Board on behalf of the Federal Government is unable to grant the above, it is requested that they will approach the various States Governments, again observing that some States at present grant travelling privileges to Naval ratings travelling on long leave.

60. That the request No. 111 of Welfare Committee 1921 be reconsidered observing that it is essential to have a booked seat in order to obviate the necessity of standing if the train is full, and the likelihood of not being allowed to travel by the train as standing is not permitted.

61. That the question of men deferring leave be at the Captain's discretion in the R.A.N.

62. That all P.O.'s travelling on duty in Mercantile Vessels be allowed Second Class berths, observing that it is detrimental to discipline for P.O.'s to be messed with junior ratings for six (or longer) weeks as is done at present when ratings are travelling to the United Kingdom.

63. That all Petty Officers travelling between capital cities by rail be allowed a first-class passage.

Note.—Request 62 and 63 are made with the object of raising the status of Petty Officers, observing that the Admiralty and Naval Board are now looking to the Petty Officers to raise the discipline of the Service to its pre-war standard.

The hours of leave are regulated by the Commodore Commanding, H.M.A. Fleet, or by the Senior Officer present at the port, and all ships should conform to the instructions issued on the subject by these Officers.

Under consideration

Approved.

The conditions under which seats may be booked at Government expense will be promulgated shortly.

Approved, under the conditions laid down in Navy Order No. 204/1922 as amended by No. 3/1923, and Navy Order No. 311/1922.

64. That Boys and Ordinary Seamen, 2nd Class, be allowed to defer leave until such time as they are granted a free railway pass.

65. It is requested that all members of the R.A.N. be exempt from Income Tax as regards money earned by personal exertion. In urging this request to be granted, it is pointed out that while permitted to vote at elections, Service men are not allowed to publicly discuss questions of any description—Naval, National, or International, nor associate with any body of people for the purpose of offering either criticism or approval of the policy of their employers, the Government. This privilege being denied them, they consider that they also be exempt from the contribution of Income Tax from money received from serving that Government, unless and until placed on the same basis as a civilian and permitted to approve and censure as appears necessary. Further, they find themselves in the anomalous position of having to pay for the privileges of guarding and serving their country.

Finally it is a fact that the nature of their duties often prevent them from the use of any of the many Public Services which are maintained by the contribution of Income Tax by the civilian, the sailor being miles out at sea endeavouring to fit himself to protect those services and their administration should the occasion arise.

In the event of this not being granted and Section 13 of the Income Tax Assessment Act 1915-16 being amended so as to make Income Tax payable by members of the R.A.N., request that it be charged on the ledger as in the R.A.N.

66. That the Naval Board will again ask the Customs to reconsider their reply to Request No. 120 of Welfare Committee 1920 concerning the supply of Tobacco, duty free, observing that H.M.S. Fantome, serving on this station for many years, has this privilege.

67. That the Fleet Welfare machinery be put into operation annually instead of bi-annually.

68. That all V.D. patients be discharged ashore for treatment.

69. That C.P.O.'s and P.O.'s be not fallen in with other ratings in the same ranks for payment.

The Naval Board do not propose to recommend any departure from the existing system.

As stated in Naval Board decision on 1921 Welfare Request No. 120, it is not proposed to introduce the tobacco ration in the R.A.N. The advice received that it is not possible to obtain tobacco free of duty is very definite, and the Board are not prepared to re-open the question.

This will be done where possible.
70. That all previous requests approved by the Naval Board be carried out, such as—8/1920, 36/1921, 26A/1921, 31A/1919, 10/1919, 64/1921

71. That the practice of having a patrol of a Petty Officer at the Naval House, Sydney, cease, as this P.O. is under the orders of a civilian, which is not in accordance with the customs of the Service

72. That a man arrested but acquitted by a Civil Court be not penalized or punished on return to his ship, either for the charge on which he was tried, or for absence from his ship due to arrest

Naval Board decision on this request was cancelled by Navy Order 182/1920

Many improvements in the bathing facilities in H.M.A. Ships have already been carried out. Further improvements will be made as far as is practicable, and as opportunity occurs

See General Request No. 2

Having due regard to the space available, lockers will be provided for all ratings in Light Cruisers as opportunity offers

See Class Request No. 66

Naval Patrols are not placed under the orders of civilians, either at Naval House, Sydney, or elsewhere

It is observed that this request is outside the terms of reference

A man who is arrested by the Civil Power and who receives an unqualified acquittal is not punished in respect of the civil charge or for the period of absence from his ship following his arrest

C.7832.
187. **ELECTRICAL WIRING OF H.M.A. SHIPS.**

Attention is directed to the necessity of obtaining a high standard of efficiency in the insulation resistance of all electrical circuits, machinery and apparatus fitted in H.M.A. Ships. To this end it is necessary in the cabling and wiring of ships to prevent oxidation of the rubber insulation, absorption and creepage of moisture.

1. During the wiring of H.M.A. Ships cut ends are to be temporarily sealed with Chatterton's or other approved non-hydroscopic compound.

2. When terminating the ends of wiring in boxes and apparatus, after the lead sheathing has been cut back, the exposed rubber insulation is to be taped over with 1/4 inch silk tape (Ribbon, silk 1/4 inch, patt. 963) up to the thickness of the over-all diameter of the lead sheathing overlapping the sheathing for at least 1/4 inch. The finished end is to be painted with Shellac varnish.

3. All coil windings of machinery, apparatus and instruments are to be thoroughly dried out under vacuum and impregnated in suitable impregnating varnishes. The mere heating of windings and the application of shellac or insulating varnishes is insufficient for the severe conditions of service.

4. Commanding Officers of Repair Ships and Shore Establishments are to prepare and forward estimates and proposals for the installation of suitable impregnators.

(187—189)

188. **CANTEEN AGREEMENT FORM—CLAUSE 13.**

With reference to Clause 5 of Navy Order No. 80 of 1921, "Instructions for the Establishment and Conduct of Canteens in H.M.A. Ships and Establishments," it is observed that Clause 13 of the Canteen Agreement in regard to the payment by the Tenant of the authorized percentage of gross receipts from sale of Aerated Waters is not always adhered to in H.M.A. Ships and Establishments, and it is communicated for guidance of all concerned that this clause is to apply in future in all cases when new Contracts are being entered into.

2. Where any approved variation has been made to existing Canteen Agreements no alteration is to be made during the unexpired period of the tenancy.

(188—189)

189. **SICK LEAVE—AMENDMENT OF FINANCIAL REGULATIONS AND INSTRUCTIONS (SEA-GOING).**

The following amendment of the Financial Regulations and Instructions (Sea-going) has been approved:

Article 37 is amended by inserting after clause (2) the following clause:

"(2A) Recommendations for sick leave for periods in excess of 30 days should be made by a Medical Board of Survey and forwarded to Naval Board for approval."

(P.332/1/28.)

190. **STATUTORY RULES 1923, No. 52.**

(Approved 10th May, 1923, gazetted 17th May, 1923, to come into operation forthwith.)

**FLEET RESERVE REGULATIONS.**

The above Regulations will be issued separately in Statutory Rule form.

191. **CHANGE OF UNIFORM OF PETTY OFFICERS WITH ONE YEAR'S SERVICE AS SUCH—AMENDMENT OF FINANCIAL REGULATIONS AND INSTRUCTIONS (SEA-GOING).**

It is approved that the provision of A.F.O. 319 of 1923 relative to the change in uniform of Petty Officers with one year's service as such, and confirmed in that rating, be adopted in the Royal Australian Navy forthwith.

2. Except as stated below, men dressed as Seamen (Class II.) who are affected by the provisions of this Order are to be credited with the clothing gratuity of £17 at present authorized for Petty Officers with four years' service as such on change of uniform to Class III. This gratuity is to be credited in the "Other Credits" column of the Ship's Ledger now current.

3. This clothing gratuity on account of the change of uniform will not, however, be applicable to those Petty Officers who are within a year of the completion of their current engagement in the Royal Australian Navy, unless they undertake to re-engage for a further period of service.

4. Royal Navy ratings are to be credited with the Outfit Gratitude irrespective of the period of their uncompleted engagement in the R.A.N., provided that they are entitled to the gratuity under the conditions prescribed in A.F.O. 319 of 1923. Payment will be made to those ratings strictly in accordance with the A.F.O. quoted except that the amount of gratuity will be £17. The proportion at the R.N. rate, viz., £14, is to be shown in the Ship's Ledger as a "Credit on behalf of the Admiralty" and the balance as a charge against the Commonwealth.

5. Paragraphs 2 and 3 of Navy Order No. 11 of 1921 are hereby cancelled.

6. The following amendments of the Financial Regulations and Instructions (Sea-going) have been approved:

**AMENDMENTS.**

Article 6 is amended as follows:

1. By inserting after the word "ratings", in the second line of clause (6), the words "including those lent from the Royal Navy".

2. By omitting from sub-clause (b) of clause (6) the words "with four years' service as such", and inserting in their stead the words "with one year's service as such, and confirmed in that rating".

3. By omitting from sub-clause (b) of clause (6) the words "as prescribed in Navy Orders 1921, No. 11."

4. By inserting after the word "cases" in the second line of clause (7) the words "except as provided in clause (6)".

264/1923 (G.A.571/202/9.)

194. NAVAL WORKS—PERFORMANCE OF, BY NAVAL RATINGS.

An agreement has been made with the Works and Railways Department that certain works, which hitherto were carried out by that Department, may now be executed under Naval supervision by Naval ratings and employees.

2. Such works may be divided into four categories of minor works of repairs and maintenance, viz.:

(a) Jobbing and urgent minor repairs estimated to cost £2, or less.

(b) Urgent repairs prescribed in paragraph 56 of Public Works Regulations.

(c) Maintenance of stations, switchboard and wiring, and other plant in Generating Stations, installed by the Naval Authorities.

(d) Such works of repairs and maintenance estimated to cost more than £2 as may be delegated specifically by the Minister for Works and Railways.

3. Works under 2 (a) Jobbing, &c.:

Ordinary jobbing, each item of which is estimated to cost £2 or less, on buildings, fences, ground, yards, wharves, and structures generally, including locks, glazing, sash and door fasteners, house and sanitary plumbing, furniture and fittings, electric lamps, fuses, bell circuits, repairs to tarpaving and roads, tramways, paths, painting required to make good on jobbing work, painting electric light poles, and jobbing work of a light character.

4. Under 2 (b) cases of extreme urgency as prescribed in Public Works Regulations as follows:

Cases of extreme urgency when damage to public buildings or works is imminent, or risk or accident to the public or officials is involved.

The Officer-in-Charge of the building or work is responsible that immediate steps shall be taken to effect such repairs as may be absolutely necessary. The Officer-in-Charge of the building or works shall carry out necessary repairs—the expenditure not to exceed £5.

5. The exception to jobbing works under categories 2 (a), (b), and (d) should be:—Underground drainage, water supply mains and painting other than making good on jobbing.

6. The execution of works under category 2 (c) by the Naval Authorities will vest them with full responsibility for maintenance, &c., of plant installed under those Authorities, and with payments for the maintenance thereof from Naval Votes.

7. Works which should be included under category 2 (d) are those the estimate of which exceeds the amounts mentioned in paragraph 2, but which the Minister for Works and Railways, after request by the Naval Authorities, may approve of being carried out under naval superintendence, such works to form the subject of requisition in the ordinary manner, and the estimate of cost thereof to be reviewed by the Works Director before submission by the Naval Authority.

8. With the exception of maintenance of Power House Plant and other machinery installed under Naval directions, the cost shall be borne by the Department of Works and Railways. The Naval Authority shall carry out the prescribed works and pay for them, subject to reimbursement by the Works and Railways Department, and in order to effect the adjustment, a fortnightly claim, with list of works, in duplicate, attached, setting forth the items carried out and the cost of each, shall be forwarded to the Department of Works and Railways.

9. The following conditions must be observed:

(i) That the Naval Establishment will make use of its normal Naval Ratings or Employees to carry out the work. No additional labour is to be engaged or employed.

(ii) That works estimated to cost more than the amounts prescribed shall not be carried out piecemeal as jobbing.
(iii) That all works paid for from the votes of the Department of Works and Railways shall be subject to inspection by an Officer of that Department.

(iv) That if a work entails the purchase of stores or materials, the Works Director, or his responsible Officer, shall be consulted as to issue from Works Store or purchase.

(v) That, where feasible, any jobbing work in progress shall be brought under the notice of a Works Officer on the spot in order to facilitate certification for reimbursement of the Naval Votes.

10. The erection of all buildings and works, for which funds are votes or are provided by the Treasury, for execution under the Department of Works and Railways, shall be carried out by that Department.

11. Works falling under categories (a) and (b) may be put in hand without reference to the Works Director; claim for recovery of cost being rendered as set out in paragraph 8 above. Claim should be accompanied by covering requisition.

Works under category (c) will be a charge against Naval Votes, and should be dealt with under existing instructions relating to the incurring of expenditure under Naval Votes.

12. It will be noted that, in respect of any works falling under category (d), the approval of the Minister of Works and Railways is required. The following routine will therefore be necessary:

(a) Estimate of cost to be prepared and requisition to be referred to the local Works Director for review of estimate and for certificate that funds are available under Works Votes. A notification should at the same time be given to the local Works Director that it is proposed to seek authority to this work being carried out by the Navy.

(b) Requisition, when returned by Works Director, to be referred to Navy Office for approval of Naval Board and of Works and Railways Department.

(c) Requisition, when approved, will be returned to the Establishment or Office originating for action.

(d) As soon as work is completed, claim for recovery to be rendered to Works Department.

13. Works falling under categories (a), (b), and (c) only are to be carried out at Naval Staff Offices, under the supervision of District Naval Officers and Sub-District Naval Officers.

14. Works which do not fall within the four categories set out should be made the subject of a requisition on the Department of Works and Railways in the usual manner.

15. Navy Orders 369 of 1922 and 404 of 1922 are hereby cancelled.

195. NAVAL ARMAMENT STORES FOR SIGNALLING PURPOSES

Supplied to Fleet Auxiliaries, Dockyard Craft, Etc.

196. COMMUNICATIONS TO AND FROM NAVY OFFICE.

Article 119, paragraph (4) of Consolidated Navy Orders 1911–1920, is amended by adding at the end thereof the words "Director of Naval Reserves and Naval Reserves Mobilization."

(G.A.404/203/2.)

197. PROVISIONS—ADDITION TO FIXED ISSUING PRICES, ETC.

With reference to Navy Order 292 of 1922, the following items are approved for addition to the list of Fixed Issuing Prices for Provisions:

- Pumpkin and Vegetable Marrow—Issuing price, 1d. per lb.

2. These items are also approved for addition to the Fresh Vegetables authorized for issue in Ships victualled on Standard Ration, the scale for issue being 4–lb.

3. Accountant Officers should insure that, as far as is possible, the issue of Fresh Vegetables is arranged so that a reasonable variety is supplied both to the General Mess and to Messes on Standard Ration.

4. The issue of Fresh Vegetables in Ships victualled on the Standard Ration should, when possible, be made in rotation as laid down in Navy Order 292 of 1922.

5. In Ships on Standard Ration, mustard, pepper, salt and vinegar are repayment items and issues are to be charged against the Messing Allowance. The previous method of issuing these articles "as required" ceased on the introduction of the existing revised Standard Ration.

(S.A.443/1/95.)

198. PACKAGES USED FOR VICTUALLING STORES.

Attention is drawn to K.R. and A.I. Amendments (K.R. 8/23) of February, 1923, Article 1729, in regard to the accounting for and return of the victualling packages referred to. Every care is to be taken to insure that the instructions contained therein are closely observed by H.M.A Ships and Establish­ments wherever practicable in so far as the Royal Edward Victualling Yard is concerned.

2. In addition to the articles mentioned in Article 1729 above referred to all Plain Jars and the Heads of wood-bound casks are to be returned when practicable.

(S. 453/1/63.)

199. ADOPTION, REVISION, AND ABOLITION OF ESTABLISHED FORMS, AND SUPPLY OF PUBLICATIONS.

The undermentioned A.S. Forms have been adopted for use in the R.A.N.

First supply will be made by the Naval Store Officer, Sydney, without demand:

A.S.1233b. — "Trade Certificate—Seaman Branch—Torpedo or Submarine Coxswains."
2. It has been decided to utilize the corresponding Admiralty "S" Forms in lieu of the undermentioned A.S. Forms which will not be reprinted. Stocks of the A.S. Forms are to be utilized until exhausted:

3. It has been decided to utilize the corresponding Admiralty "S" Form (revised March, 1920) in lieu of the undermentioned A.S. Form which will be abolished on receipt of supply of the Admiralty form which is on order. First supply will be made by the Naval Store Officer, Sydney, without demand:

- A.S. 374a.—" Record of observation for deviation." (G. 480/202/1.)

4. The undermentioned form has been revised and first supply will be made by the Naval Store Officer, Sydney, without demand. The existing form will then become obsolete. It is desired that the revised form should be substituted for the obsolete form both for new entries and for ratings at present supplied with the obsolete form. Records of Signal and Telegraphist Ratings, at present serving, should be transcribed to the revised form accordingly:

5. Amendments to Form A.S. I.—The numbers of the undermentioned forms in Form A.S. I. should be amended by deleting the letter "A" and substituting "*":

- S.1421.—" Guard Book for Supplies—Gunner’s Whitehead Torpedo Store Ledger." (G.A. 584/201/1.)
- S.1422.—" Guard Book of Returns." (S.N. 450/24/129.)

* Star denotes that "S" form is in use in the R.A.N.

6. As there is already in use in the R.A.N. a form A.S.169z, it has been decided to amend the number of the undermentioned form, the institution of which was notified in Navy Order 101 of 1923, to A.S. 169y—

- A.S. 169y.—" List of R.A.F.R. Ratings who have completed annual training in H.M.A.S. during month of 192..." (G. 480/1/222.)

Copies of form and form A.S. I. should be amended accordingly.

7. The titles of the undermentioned forms as shown in A.S. I. are erroneous and should be amended to read as follows:

PAYMENT OF ALLOWANCE FOR THE PERFORMANCE OF HIGHER DUTIES, PERMANENT CIVIL OFFICERS (OFFICE STAFF).

1. The following decisions respecting the payment of allowances for the performance of higher duties to Permanent Civil Officers (Office Staff) appointed by Order in Council, i.e., Draughtsmen, Clerks, &c., are to be observed, except where the provisions of this Order are not in agreement with Arbitration Court Awards or decisions of the Commonwealth Public Service Arbitrator, when these latter will apply:

CLERICAL OFFICERS.

2. Where a clerical officer has performed the duties of a position of a higher class than that in which he is classified for 26 full working days continuously or for 26 full working days in the preceding twelve months, he may be granted, on the approval of the Secretary, during the period for which he continues to perform the duties of such higher position, payment in addition to salary at a rate equal to the difference between his salary and the minimum salary of the class or grade of the higher position.

3. Careful supervision must be exercised so as to obviate the retention of officers on higher class duties for longer than is actually required by the exigencies of the Department.

4. In any case where an officer is directed to take up higher duties, a report will be immediately furnished to the Secretary in the following manner:

<table>
<thead>
<tr>
<th>Name of officer</th>
<th>Higher position and employment</th>
<th>Reason for absence</th>
<th>Whether the relieving officer is performing whole of the duties of the higher position permanently filling the higher position</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date of commencing absence of officer</td>
<td>of higher position</td>
<td>of higher position</td>
<td></td>
</tr>
</tbody>
</table>

A further report is to be submitted upon the officer ceasing to perform the higher duties or in the event of portion of the duties of the higher position being re-allocated.

(This instruction supersedes circular letters 1922-2 of 1st February, 1922, and 1923-8 of 9th March, 1923.)

5. In calculating the period necessary to be served in the higher position before allowance is claimable only the actual time during which the Officer performs the higher duty should be considered, provided that where an Officer is engaged on higher duties immediately preceding and succeeding a public holiday or holidays he may be considered for all purposes as if he were performing the higher duties on the holidays; also provided that where an Officer carried out higher duties immediately preceding leave of absence granted to enable him to fulfiI the course of training prescribed by the Defence Act and again takes up the higher duties immediately he returns from leave, the period of such absence may be counted as time on duty.

6. Where an officer performed higher duties prior to enlistment and again performs higher duties after resumption of duty in the Department, the period of absence on active service should not be taken into account when determining the period he must serve before becoming eligible for allowance.

7. The period fixed during which higher duties are to be carried out before allowance is payable may be disregarded in the following circumstances.
the amount paid to him and the amount he would have received had he been an officer should be allowed to claim the difference between allowance, payment for overtime and for duty on Sundays or holidays for the period prior to actual payment of the allowance should be made on the basis of salary plus higher duties from a date prior to that on which he actually receives payment, the completion of the requisite time in broken periods in the higher position his eligibility for an allowance for performing higher duties shall depend upon Officer on leave constitutes a break in the continuity of his employment in the higher position, and if he resumes duty in such position after the absence performance of the higher duties, except as provided hereunder:—

higher duties shall have his allowance suspended during any cessation of occurrence of the Minister.

An Officer who is in receipt of an allowance for the performance of higher duties shall have his allowance suspended during any cessation or broken, in order that the period for payment of increment may be calculated.

9. Except as provided in paragraph 8 of this Order, the absence of an Officer on leave constitutes a break in the continuity of his employment in the higher position, and if he resumes duty in such position after the absence his eligibility for an allowance for performing higher duties shall depend upon the completion of the requisite time in broken periods in the higher position during the preceding twelve months.

10. Where an Officer has been granted an allowance for the performance of higher duties from a date prior to that on which he actually receives payment, payment for overtime and for duty on Sundays or holidays for the period prior to actual payment of the allowance should be made on the basis of salary plus allowance, i.e., an officer should be allowed to claim the difference between the amount paid to him and the amount he would have received had he been in receipt of the allowance when the service was rendered. Conversely, in cases where an officer is paid overtime during a period which is later covered by a higher duty allowance raising his remuneration above £400 per annum, such officer should be required to refund the overtime paid in respect of that period.

11. For the purpose of computing travelling allowance, district allowance, overtime payment, basic wage and child endowment allowance, holiday pay ment, and Sunday payment, the allowance paid for performing higher duties may be treated as salary. Such allowances should be charged to the Salaries Vote.

12. Where an officer is required to perform in succession the duties of two or more higher positions, such as Clerk, 5th Class, acting as Clerk, 4th Class, for twenty days, and then as Clerk, 3rd Class, for seven days, he is eligible for the allowance on the basis of the position occupied after completing 26 working days. Should he, during the twelve months succeeding the relinquishment of such higher duties, relieve in other higher positions, the allowance should be paid on the basis of the position temporarily occupied from the date of commencement of such higher duties. No allowance should, of course, be paid to any officer who has not performed higher duties for the prescribed period within the preceding twelve months.

13. An officer acting in a higher position than that in which he is classified and receiving an allowance at the date of an award of the Arbitration Court or the Commonwealth Public Service Arbitrator coming into operation, should be paid allowance, without being required to serve the prescribed period under the Award, until he ceases to act in the higher position.

Professional Officers.

14. The provisions of paragraphs 1 to 13 inclusive shall apply equally to officers of the Professional Division. After the period of 26 full working days has elapsed, a professional officer shall be paid at a rate not lower than the minimum prescribed for officers in the higher positions as if he had been promoted as at that date and with increments on the basis of actual service in the higher position. The payment of increments under the award in the case of the Professional Officers' Association to an officer performing duties classified in a higher class than his own can only be made after the expiration of a period of twelve months from the date of operation of the award, provided, he had been in receipt of an allowance prior to the award. If, however, an officer commenced to act in a higher position subsequent to the Award, the increment would accrue after the completion of thirteen months' service in the higher position. It this necessitate accurate records being kept of all temporary service in higher classified positions, whether continuous or broken, in order that the period for payment of increment may be calculated.

Typists.

15. Clause 15 of the Typists' Award provides that where an officer is called upon to fill, temporarily, a higher position than that in which he is classified, he is to be paid, after one calendar month (continuous or broken) i.e., 26 full working days, the minimum salary of the higher position.

The provisions of paragraphs 1 to 13 inclusive of this Order shall apply equally to Typists.

16. Navy Orders 293, 330, 360, and 520 of 1921, and 46 of 1922 are hereby cancelled.

230. AMENDMENT OF NAVAL FINANCIAL REGULATIONS—FURLough AND EXTENDED LEAVE.

In order to embody the new furlough conditions which have been applied to the Naval Forces since 30th November, 1919, and to give effect to recent decision, the Naval Financial Regulations will shortly be amended to read as follow:

108. (1) Furlough.—When a person has continued in the service of the Commonwealth under the provisions of the Defence or Naval Defence Acts for at least twenty years, the Naval Board may grant him leave of absence for a period not exceeding one month and a half on full pay, or three months on half pay, in respect of each completed five years of continuous service, provided that such person shall not be granted leave of absence to exceed a continuous period of twelve months at any one time, provided further that service in the Permanent Naval Forces on loan from the Royal Navy shall not be counted as service qualifying for such leave of absence.

(2) Previous Service.—When a person has become transferred or appointed from any position of a permanent nature under State or Commonwealth to a permanent position in the service of the Commonwealth under the provisions of the Defence Act or Naval Defence Act, all continuous service of such person under State or Commonwealth shall, for the purpose of furlough, be reckoned as service in the service of the Commonwealth under the provisions of the Defence Act or Naval Defence Act.

(3) Members of the Permanent Naval Forces who served under the terms of the Naval Agreement Act 1903 may, for the purpose of furlough, be allowed to count service under the terms of the Naval Agreement Act 1903 as service in the service of the Commonwealth under the provisions of the Defence Act or Naval Defence Act.

(4) Furlough on Retirement.—When a person who has continued in the service of the Commonwealth for at least twenty years is retiring, the Naval Board may authorize payment to him upon retirement of a sum equivalent to the amount of pay that would have been received by him during such leave of absence as would immediately prior to retirement have been granted to him under sub-regulation (1) of this Regulation.

(5) Furlough Due at Death.—Upon the death of a person who at the date of his death was eligible under this Regulation for grant of leave of absence, the Naval Board may authorize payment to the dependants of the member of a sum equivalent to the amount of pay which would, under this Regulation, have been granted to the person had he retired immediately prior to the date of his death.

(6) Notwithstanding anything contained in this Regulation—
   (a) There shall not be granted under this Regulation, in respect of the service of any person, leave of absence or pay on retirement or death exceeding in the whole twelve months on full pay or its equivalent;
   (b) Except upon the retirement of a person who had attained the prescribed age of retirement, leave of absence for recreation
shall not be granted under regulation 140 of the Naval Forces Regulations in respect of the year in which leave of absence granted under this Regulation commences, and, if leave of absence for recreation has been granted in the year in which leave of absence granted under this Regulation commences, it shall be regarded as part of the period of leave of absence granted under this Regulation: provided that the total period of leave of absence for recreation, which may under this paragraph be withheld or regarded as portion of the period of leave of absence granted under this Regulation during any person's period of service, shall not exceed the period of absence for recreation which may be granted in respect of one year of service; and

(c) The official conduct record of a person shall be taken into consideration in determining whether the whole or any portion of the leave of absence or pay provided in this Regulation may be granted.

109. (1) Extended Leave.—The Naval Board may grant to any person whose period of service is less than twenty years who is ineligible for furlough under the last preceding Regulation immediately prior to his retirement from the service on or subsequent to his attaining the prescribed age for retirement, leave of absence on full pay for a period not exceeding that appropriate to his service, as specified in the following scale:—

Service of sixteen years and less than twenty years five months.
Service of twelve years and less than sixteen years four months.
Service of eight years and less than twelve years three months.
Service of four years and less than eight years two months.

(2) Except as provided in sub-regulation (4) of this Regulation, a person shall not be eligible for the grant of extended leave under this Regulation unless he has completed twelve years' service.

(3) Payment in Lieu of Extended Leave.—In lieu of leave in accordance with sub-regulation (1) of this Regulation, the Naval Board may authorize payment to a person eligible for leave in pursuance of this Regulation upon his retirement from the service of a sum equivalent to the pay for a period of leave not exceeding that which the person could have been granted under this Regulation.

(4) When a person who has not attained the prescribed age for retirement is invalided from the service after less than twenty years' service, and the cause of such invaliding is permanent and is not due to misconduct or to causes within his own control, the Naval Board may authorize payment to the person of a sum equivalent to the pay for a period of leave not exceeding that for which, had he attained the prescribed age for retirement, he would have been eligible under sub-regulation (1) of this Regulation.

(5) In the event of the death of a person before he has completed twenty years' service and either before or after he has attained the prescribed age for retirement, the Naval Board may authorize payment to the dependants of the person of a sum equivalent to the pay for the period of leave which the officer would have received had he been eligible for, and granted leave of absence under sub-regulation (1) of this Regulation.

(6) The official conduct record of a person shall be taken into consideration in determining whether the whole or portion of his leave of absence or pay provided in this Regulation may be granted.

110. In the case of persons on Sea-Going rates of pay, pay shall include the following:—

(a) Active Pay.
(b) Deferred Pay.
(c) Good Conduct Badge Pay.
(d) Allowance for special qualifications.
(e) Victualling Allowance.
(f) Kit Upkeep Allowance.
(g) Married Allowance.
(h) Dependant Allowance.

When payment of a lump sum is granted in lieu of extended leave of absence or furlough, the above allowances shall be included in the payment in respect of the whole period at the rate which the member was entitled to receive at date of termination of appointment.

The Financial Regulations (Sea-Going) will be amended on similar lines to the above.

It should be noted that the conditions set forth in the proposed amendment are now actually in operation and have been for some time past and cases should not be submitted unless they comply with these conditions.

Attention is invited to Navy Order 307 of 1921 regarding the method of forwarding applications for furlough on retirement. Cases have occurred where ratings have been discharged without applications having been forwarded. Paragraph 4 of Navy Order 307 should be complied with in future.

CHARGEABLE RAILWAY WARRANTS.

It has again been brought under notice that the privilege whereby ratings are enabled to obtain chargeable railway warrants is being abused.

2. Report has been received that ratings applying for warrants invariably advance the reason that they have not funds to purchase a ticket and are under the impression that it is the approved practice to obtain a chargeable warrant.

3. It should be brought under the notice of all concerned that it is their responsibility to see that they reserve sufficient funds to purchase their return railway tickets, and that the privilege of obtaining a chargeable warrant is intended to be exercised in very exceptional circumstances only.

4. Attention is drawn to Navy Order No. 250 of 1921 which states that disciplinary action should be taken when the reason for obtaining the warrant is not considered satisfactory.

As pay for the period of leave is advanced before leave commences, any statement that sufficient funds were not in the member's possession for fare for the return journey unsupported by an adequate reason, would not be satisfactory.

5. Petty Officers and men should be instructed to book their tickets for the return journey as soon as possible after arrival.

(A.A.632/203/26.)

(Payment of Claims for Hospital Treatment of Members of the Permanent Naval Forces (sea-going).

1. Payment of all Claims for Maintenance of Members of Permanent Forces (sea-going) in Hospitals in New South Wales, except in the case of patients from H.M.A.S. Tingira, will in future be made by H.M.A.S. Penguin.

2. To enable claims to be checked by H.M.A.S. Penguin, a Return, as per pro-forma appended, showing Officers and Ratings discharged to and received from hospital, is to be rendered monthly by all ships at Sydney, except H.M.A.S. Tingira, to Accountant Officer, H.M.A.S. Penguin.

3. In other States such accounts will be paid as follows:

   Victoria.—Accountant Officer, H.M.A.S. Cerberus.
   Other States.—District Naval Officer, Brisbane, Birkenhead, Fremantle, and Hobart.

4. Advice regarding members left behind or undergoing treatment will be forwarded to the Commanding Officers, H.M.A.S. Penguin, H.M.A.S. Cerberus, or District Naval Officers in accordance with Article 240 of Consolidated Navy Orders 1911–1920, and the Certifying Officer at these Establishments will be responsible for seeing that claims are settled promptly after the member is discharged from hospital, or monthly where the period of treatment exceeds one month.

5. Clause (6) of Article 240 of Consolidated Navy Orders 1911–1920 is hereby cancelled.

3. Certain States also allow concessions as above on travelling to schools for enrolment.

4. Commanding Officers, R.A.N. College and H.M.A.S. Tingira, are to obtain a supply of the concession forms from the various State Railway Departments, and see that such forms are properly completed and attached to the Naval Railway Warrant Form before application is made for tickets.

5. The concession forms should be clearly stamped according to the age of the persons concerned and the Naval form of warrant also endorsed "Scholar's concession fare—Under 16 years of age", or as the case may be.

6. District Naval Officers are to see that the necessary concession forms are completed in the event of application being made to them for tickets when returning from leave, and are also to sign the necessary certificate to enable the concession to be obtained when Cadet Midshipmen or boys proceed to R.A.N. College or H.M.A.S. Tingira on joining.

247. WELFARE COMMITTEE—AUXILIARY SERVICES.

In accordance with the provisions of Navy Order No. 91 of 1922, paragraph 3, the welfare machinery to provide for the discussion and representation of matters affecting the well-being of members of the R.A.N.R. Staff and persons attached thereto will be put into operation during September or October, 1923.

2. The initial procedure to be followed is that provided in Navy Order No. 2 of 1921, paragraph 4, except that the sub-committees will be limited as regards the election of their representatives on the advisory committee to members of the R.A.N.R. Staff who will at that time be undergoing the "Refresher" Course at Flinders Naval Depot.

3. The personnel of the Welfare Committee will be as follows:

   President.—Commander L. S. Bracegirdle, D.S.O., R.A.N.
   Mr. W. Trevaskis, Commissioned Instructor, R.A.N. (S.D.N.O., Williamstown).
   Mr. J. Fox, Warrant Instructor, R.A.N. (Assistant to S.D.N.O., Port Melbourne).

4. The necessary steps are to be taken forthwith in all R.A.N.R. Districts to facilitate the inauguration of the preliminary discussions by the sub-committees, the provisions of paragraphs 7, 8, and 9 of Navy Order No. 2 of 1921 being closely observed. Matters brought forward at the preliminary discussions are to be summarized by the sub-committees themselves and held in readiness for transmission to the Advisory Committee when the personnel thereof is notified.

5. The Joint Conference of the Advisory and Welfare Committees will take place in Melbourne during September or October, 1923, and will be preceded by a special session of the Advisory Committee to formulate requests, &c. The exact date of such meetings, to coincide with the termination of the "Refresher" Course at Flinders Naval Depot, will be promulgated later by the D.N.R.M.

6. After final consideration by the Welfare Committee the requests, with the Welfare Committee’s recommendation thereon, are to be forwarded to the Naval Board.

249. MINOR SERVICES PERFORMED BY MEMBERS OF THE NAVAL FORCES.

It has come under notice that payments are being made to members of the Naval Forces for minor services performed for the Department (e.g., making types for marking clothes, marking scissors, knives, &c.)

2. Decision has now been given that this practice is to be discontinued, and the work is to be carried out as part of the ordinary duties of ratings in departmental time.

3. The only allowances payable to members of the Naval Forces are those shown in the Naval Financial Regulations.

(A.A.401/211/9.)

250. PAYMENT OF EMPLOYEES.

A case has occurred where a member of the Sea-going Forces whilst on leave prior to retirement was re-employed by the Department in a temporary civilian capacity, and was thus in receipt of pay for the period concerned in two different capacities.
It should be noted that such duplicate payment is irregular, and in no
circumstances should an employee be permitted to receive pay from two
sources of the public funds for the same period. This does not, however,
apply to the receipt of a War Pension.

2. The following amendment to Naval Account Regulations and Instruc-
tions is approved:

After Article 31 the following new article is inserted:

31A. No person shall receive the pay attaching to more than
one appointment for the same period. A person on recreation
leave prior to retirement who applies for re-employment could
not receive payment for such re-employment whilst still in receipt
of pay for the period of his leave.

(P.C.609/203/10.)

251. AMENDMENT OF REGULATIONS AND INSTRUCTIONS FOR THE
R.A.N.R.—REVISED ESTABLISHMENT OF NAVAL ARMAMENT
STORES.

The Regulations and Instructions for the Royal Australian Naval Reserve
are to be amended as follows:

Appendix VII., pages 140-146 inclusive, are cancelled and the

APPLICATIONS AND RENEWED APPLICATIONS FOR DEPENDANT ALLOWANCE—CARE TO BE EXERCISED IN PREPARATION.

With reference to Financial Regulations and Instructions (Sea-Going) Article 6, Clause 14 (10), attention is invited to the necessity for all particulars furnished on Form A.S. 1299v being correct in every detail.

2. Cases frequently come under notice where applicant’s mother, brothers and sisters are shown in renewed applications as being of the same age as they were when applications were originally made.

3. It is also noted that the grounds on which applications are made are not always stated fully or with due regard to the dependant’s circumstances. An application recently received merely stated that the mother of applicant was solely dependent for support upon applicant when, on investigation, it was found that such was by no means the case.

4. At the time the application (Form A.S. 1299v) is being prepared the applicant’s attention is to be drawn to the fact that full and reliable information is required; also that the application is in the nature of a declaration and that he is liable to punishment for any false or misleading statements.

(b) Venereal cases are to be sent to Sick Quarters, Garden Island, and infectious cases to the Coast Hospital, or other Hospital for Infectious Diseases.

(c) Before a case is sent to Hospital a signal should be made through Garden Island to the Senior Medical Officer, Naval Wing, Randwick, stating the nature of the case and asking whether accommodation is available.

(b) The Transfer List forwarded to H.M.A.S. Cerberus or Penguin showing the state of account at the date of discharge, should contain a notation in the body of the form indicating the date on which the Officer or man was first discharged to Hospital, nature of illness, &c., and should be accompanied by the Service Certificate of a rating.

(c) At ports other than Melbourne and Sydney, the District Naval Officer should be advised and requested to make necessary arrangements (when the Hospital authorities certify that the patient is fit to travel) for passage direct to the Depot Ship in which the patient is borne for pay, for disposal. The District Naval Officer should also acquaint the Commanding Officer of the Depot of the actual date of discharge from Hospital.

(e) At those ports where no District Naval Officer exists, the Navy Office should be informed by telegram whenever a patient is left in Hospital on Ship sailing.

(f) The Principal Medical Officer of the Hospital should also be advised by the Ship to address any communication regarding the patient and claim for Hospital charges to the District Naval Officer, except in Victoria and New South Wales, where he should be requested to communicate with H.M.A.S. Cerberus or Penguin.

ALTERATIONS TO FIXTURES OF H.M.A. SHIPS.

It has been observed that certain alterations other than those of absolute necessity have been made by Ship's Artificers to Fixtures of H.M.A. Ships without the prior approval of the Naval Board having been obtained in accordance with Consolidated Navy Orders 1911/1920, Article 120, Section I. (i), and also that such alterations were not reported on the prescribed form as required by Article 1094 (19) of King's Regulations and Admiralty Instructions.

2. The attention of Commanding Officers of H.M.A. Ships is drawn to this irregular procedure, and they are to take the necessary steps to prevent any such alterations or additions being made in future to Fixtures in H.M.A. Ships without necessary approval having first been obtained, and to insure that, when approved alterations, &c., are effected by Ship's Artificers, such are invariably reported on Form S.197 (D.526).

3. The various responsible Officers are to be instructed accordingly.

OFFICIAL CALLS.

Flag Officers, Commodores, Captains and Commanders in Command, are to pay the following Official Calls, for which cab or carriage hire will be allowed:

1. On their Excellencies the Governor-General and Governors of each State—
   (a) As soon as possible after assuming Command.
   (b) Within one month of relinquishing their Command.
   (c) On the appointment of a Governor-General or Governor of a State.
   (d) Within three months prior to the vacation of his appointment by a Governor-General or Governor of a State.

Two calls only to be paid on Their Excellencies during one appointment or one Command.

2. On Premiers, Chief Justices, Lords Mayor and Mayors of each State Capital—by Flag Officers, Commodores, Captains and Commanders in Command only on their first visit after assuming command (one call only to be paid during the tenure of Office of each official concerned).

Note 1.—Tenure of Office of an Officer of and above the rank of Commander is not to be considered as broken when he is transferred from one Ship or Establishment to another in the Royal Australian Navy.

Note 2.—The call on His Excellency the Governor of a State will not be made until the ship visits the capital city of the State concerned, unless, at an earlier date, His Excellency happens to be in some other city of the State during the time the Ship is at the same place.

3. The return call of His Excellency the Governor-General and Commander-in-Chief of the Royal Australian Navy will be paid within twenty-four hours by an A.D.C. or other Officer deputed by His Excellency.

The return calls of Their Excellencies the Governors of States will be paid in accordance with the provisions of Article 99, paragraph 4 (a) of the King's Regulations and Admiralty Instructions.

Return calls will be made on Officers in Command of Ships on board the Ship, and on Officers in shore appointments at their official office at the nearest capital city.

Article 45, Consolidated Navy Orders, is hereby cancelled.

BOYS—TRAINING AT SEA.

The provisions of Admiralty Fleet Order No. 1317 of 1923, regarding the training of boys at sea, have been adopted in the Royal Australian Navy.

RECOVERY FOR THE LOSS OF OFFICERS' MESS TRAPS.

With reference to Navy Order No. 141 of 1923, examinations of Officers' Mess Traps Accounts (Form A.S.100—Parts I., II. and III.), reveal that in several instances, particularly in the case of one Ship, the amounts recovered for the loss of Mess Traps have not been based on the full value plus percentage charges as stated in Navy Order No. 13 of 1921.

2. It is pointed out that the responsibility for the proper recovery being made rests with the Accountant Officer, and any future losses to the Crown in this respect will be a matter for which the Accountant Officer concerned will be considered liable.

OFFICERS AND MEN PROCEEDING TO UNITED KINGDOM.

Navy Order No. 205 of 1920 is cancelled and the following Navy Order is substituted:

Officers and Men proceeding to the United Kingdom should in all cases be discharged to the Books of H.M.A.S. Cerberus for passage. Pay documents are to be dealt with in the following manner:

In cases where Officers and Men in special circumstances take passage direct to London Naval Depot from H.M.A. Ship in which serving and not from H.M.A.S. Cerberus, the former Ship shall prepare Transfer List in duplicate, one copy to be forwarded to the Naval Representative, without fail by the same vessel in which the Officer or Man is travelling. The second copy is to be forwarded to H.M.A.S. Cerberus with a note thereon of date of despatch of original to United Kingdom and Ship by which Officer or Man is travelling.

On receipt of duplicate Transfer List in H.M.A.S. Cerberus the Officer or Man is to be entered on Cerberus ledger and the state of his account shown in Cerberus, and duplicate Transfer List forwarded without delay to the Naval Representative.

It will be the responsibility of the Ship discharging the Officer or Man to advise Cerberus of any change in account that occurs after the Officer or Man has been discharged for passage, particularly where passage is taken direct and not through Cerberus.

It will be the duty of Cerberus, and not the Ship from which the Officer or Man is discharged, to advise the Naval Representative of any variation made in the account after the despatch of the Transfer List. Any alteration in respect of allotment in force will also be notified to Navy Office by Cerberus.

The Officer or rating in charge of a draft will be responsible for notifying Cerberus immediately, by telegram, of any member of the draft, who fails to complete passage to the United Kingdom on account of death, sickness, desertion, &c., the Naval Representative being also informed on arrival in the United Kingdom. If the first opportunity for making this report is on arrival in England, it should be made through the Naval Representative.

Officers or Men received in H.M.A. Depot, London, from Ships other than Cerberus are to be treated as "Received from H.M.A.S. Cerberus."

The Transfer Lists of Officers and Men transferred direct from Cerberus to H.M.A. London Depot, are to be forwarded by the vessel in which the Officer or Man takes passage.

OFFICERS' PAY BOOKS AND CASUAL PAYMENTS BOOKS—EXAMINATION OF.

Examination of Officers' Pay Books (A.S. 57) and Casual Payments Books (A.S. 18) forwarded into office by Ships and Establishments as required by Navy Order 379 of 1922, indicates that regulations and instructions governing the use of these books are not being observed in many particulars.

2. The attention of Commanding Officers and Accountant Officers is directed to the necessity for strict compliance with the provisions of Naval Account Regulations and Instructions. Article 130 (10) Article 130 (15).

1. Payments through Casual Payments Books (A.S. 57) should be confined to Petty Officers and Men; payments to Officers to be made through Officers' Payments Book (A.S. 18).

2. A signature should be obtained for each payment made, the member concerned signing in person for the amount shown opposite his name, except as provided hereunder. Note.—Cases have come under notice where surname only appears as signature; it is desirable that signature include initials of Christian name and full surname in all cases.

(a) Where it is not practicable for an Officer or man personally to sign for the amount due to him, he may in writing authorize an agent to sign on his behalf, such authorization to be permanently attached to the page of the book on which payment appears.
(b) The medical officer should sign for amounts due to members in the Sick Bay who are unable to sign in person.

3. In no circumstances should payments through Officers' and Casual Payments Books include items which it is usual to pay on voucher through the Cash Account, or any amount not included in the Ship's Ledger. Fines imposed by a Civil Court may, however, be paid through the Casual Payments Book in the manner stated in the regulation quoted opposite.

4. A separate page of each book should be opened for each pay period. Each quarter's transactions should be self-contained and a separate sheet used for the first period of each quarter in order that the transactions for the final pay period of the preceding quarter may be forwarded into office with the quarter's transactions.

5. Certificates of Casual and Officers' payments should be furnished at the foot of the total payments for each pay period of the quarter by both the Commanding Officer and Accountant Officer, a reference being furnished to the pay certificate in which the amount is included together with the date thereof.

6. Alterations should be initialled by the person making same, except that:

(a) Alterations in amounts paid should be initialled by both the payee and the Accountant Officer, and

(b) Any alteration in total amounts for periods should be initialled by both the Commanding Officer and the Accountant Officer.

7. Special care is to be taken to ensure that sheets forwarded into office in support of payments made through Officers' and Casual payments Books for each quarter are properly bound and covered to obviate any possibility of mutilation in transit.

R.A.N. NON-SUBSTANTIVE ALLOWANCES—RATES AND CONDITIONS OF PAYMENT.

It is notified for information that the Naval Board have under consideration the question of bringing the rates and conditions of certain Non-substantive Allowances in the R.A.N. into line with those in the Royal Navy.

2. A number of the existing R.A.N. allowances differ to some extent from the equivalent R.N. allowance, either as regards the rate or in the conditions of payment. The Board consider it desirable, where an allowance is paid for a non-substantive qualification or duty the requirements of which are the same in either Service, that the rates and conditions should, as far as possible, be identical.

3. With the object, therefore, of obtaining more uniformity in this respect, the undermentioned allowances are now under review, but any change decided upon will not be brought into effect until 1st July, 1924:
   (i) All Gunnery and Torpedo Non-sub. Allowances.
   (ii) Machinery Allowance.
   (iii) Allowance for Temporary Stokers.
   (iv) Dispensing, Mental and Zymotic Allowances.
   (v) Shorthand Allowance.
   (vi) Servant to Warrant Officers Allowance.
   (vii) Charge Pay—Commissioned and Warrant Writers.
   (viii) Physical Training Instructor Staff.

(This Order will be reprinted for posting on Notice Boards.)

In cases of desertion, allotments should be stopped, and charged to the last date of payment preceding the date of desertion, advice being telegraphed in all cases.

3. An even amount (pounds and/or shillings) will be paid on each pay day, representing half the monthly allotment; and future declarations should be arranged accordingly.

4. Allotments now in force to which this cannot be applied will be increased in Navy Office by 1s. per month. Accountant Officers should, therefore, make the additional charge of 1s. as from 1st October, and forward into Office as early as possible a list (in duplicate) of such additional charges. It is not desired that fresh declarations be obtained covering such increase but, in the event of any rating objecting to the increase, he is to be required to declare a fresh allotment for a reduced amount which will be equally divisible (eliminating pence).

5. The necessary amendments to Regulations and Instructions will be promulgated in due course.

317. MEDICAL ATTENDANCE FOR, BURIAL, AND PAY DURING ILLNESS OF, MEMBERS OF THE CREWS OF H.M.A. FLEET AUXILIARIES.

Navy Order 122 of 1922 is cancelled and the following instructions are substituted:

MEDICAL ATTENDANCE.

The Master, an officer, or any member of the crew of a Fleet Auxiliary may be granted the benefits laid down by the Commonwealth Navigation Act as regards medical attendance and maintenance in case of sickness or injury arising in the course of his employment.

2. The Navigation Act provides that the Master or a seaman may receive surgical and medical attendance (including the provision of medicines), maintenance and treatment in hospital at the expense of the employer, if he—

   (a) receives any hurt or injury, or contracts disease in the service of the ship, or
   (b) suffers from any illness (not being venereal disease or an illness due to his own wilful act or default, or to his own misbehaviour).

The eligibility for medical attendance terminates when the member is cured, or is brought or taken back, if shipped in the King's Dominions, to the Port where in accordance with his agreement, he is entitled to be discharged, or such other port as is mutually agreed upon with the approval of the proper authority.

3. A member entitled to Medical Attendance as aforesaid should, where practicable, be attended by a Naval Medical Officer of the Permanent or Reserve Forces, and be given treatment in Naval Wards. If this be not practicable, he should be treated in a public hospital in accordance with the terms of the Navigation Act.

Should a patient elect to be treated at a hospital of his own choice, the liability of the Commonwealth Government is limited to the amount necessary to provide medical attendance (including medicines), maintenance and treatment in a Naval Ward or Public Hospital.

4. Treatment should be given until the patient is fit for full duty. Should any patient demur at the decision of a Naval Medical Officer as to his fitness for full duty, he should be sent to a Medical Inspector of Seamen appointed under the Navigation Act for final decision.

5. The expense of all medicines, surgical and medical advice, and attendance given to a Master, officer or seaman whilst on board his ship, is also a liability of the Commonwealth Government.

6. In all other cases not covered by paragraphs 2 to 5 inclusive, and paragraph 9 of this Navy Order, any reasonable expenses incurred in respect of illness, and/or burial of any member who dies whilst on service, should be deducted from the wages of the member concerned.

7. In each case of illness, a report should be rendered to the Secretary, Naval Board, through the Captain-in-Charge, New South Wales, advising—

   (i) the nature of the illness, cause (if known), and the arrangements made for the medical treatment and maintenance in hospital of the person concerned;
(ii) particulars of advances of pay, if any, authorized; and
(iii) date of the person's discharge from the ship.

8. A full report, in duplicate, of any injury received, whether by accident or otherwise, by any member of the crew must be forwarded to the Secretary, Naval Board, through the Captain-in-Charge, New South Wales, at the earliest opportunity after the occurrence.

The report should contain the following information:
(i) Name and rating of person injured;
(ii) Date, and whereabouts of the vessel at the time of the accident;
(iii) Full particulars of the nature of injuries;
(iv) Cause of same, and the circumstances under which the accident occurred;
(v) Condition of the person injured at the time of accident, whether sober or otherwise;
(vi) Name and rank or rating of each witness;
(vii) Whether blame attached to any person, and if so, to whom;
(viii) Arrangements made for treatment of person injured;
(ix) Report of Master;
(x) Medical Report (if practicable);
(xi) Advance of pay, if any, authorized.

BURIAL EXPENSES.

9. In the case of death resulting from illness, or disease contracted, or injury received as in (a) and (b) of paragraph 2 above, the expense, if any, of the member's burial is a charge against the Commonwealth, without any deduction therefrom from the member's wages.

PAY DURING ILLNESS.

10. An Officer (exclusive of the Master) or member of the crew left behind for treatment may be paid on the following basis:

(a) If landed at his home port, wages up to the expiration of one week after the date of his recovery, provided that:
   (i) if his agreement will expire within one month of date of landing at Home Port—wages for one month;
   (ii) if the agreement does not expire within a period of one month, the wages shall not exceed a period of three months.

(b) If landed at any other than his home port, he shall receive, after his recovery, wages until arrival at that port. Provided that if, after recovery, the member rejoins his ship, or takes other employment or is offered and refuses employment on some other vessel proceeding to his home port at a similar rate of pay, his right to continue to receive wages under this paragraph shall cease. Provided that the illness, hurt or injury which shall entitle a member to the above benefits shall—
   (i) be such as wholly to incapacitate him from the performance of his duty, and
   (ii) be, or appear to be, of such a nature as to require, or be likely to require, medical treatment for a period of not less than 14 days, and

The question of the employment with the Citizen Forces of Members of the Permanent Civilian Staff of the Defence Department has been considered by the Naval Board and it has been decided that Members of the Permanent Civilian Staff of the Defence Department are not to be permitted to serve with the Citizen Forces, as, on mobilization, their services would be required in connexion with the positions they occupy in the Department, and they would, therefore, not be available for employment with the Forces.

2. This decision, however, is not to exempt any member liable for training, from carrying out his obligation under Part XII. of the Defence Act.

3. In the case of persons referred to in paragraph 2 it has been decided that such persons who qualify may be permitted to accept commissions in the Citizen Forces, but on the expiration of the period of their liability for training under section 125 of the Act, they will be transferred to the Retired List.

319. AMENDMENT OF FINANCIAL REGULATIONS AND INSTRUCTIONS (SEA-GOING) — MACHINERY AND SENIOR ENGINEER'S ALLOWANCES FOR RATINGS.

The amendment of the rates and conditions of payment of Machinery and Senior Engineer's Allowances for ratings, as set out in Navy Order No. 406 of 1921, was inadvertently omitted in the reprint of the Financial Regulations (Sea-going), dated 11th May, 1922. Article 9, clause 22, should, therefore, be amended in accordance with Navy Order 406 of 1921.

(This amendment will be reprinted.)

325.

PROCEDURE TO BE OBSERVED IN CASES WHERE THE WEIGHTS AND MEASUREMENTS OF GOODS RECEIVED DO NOT AGREE WITH BILL OF LADING.

In connexion with the settlement of accounts for freight charges on stores and equipment shipped from United Kingdom to Australia on behalf of this Department, a case has recently arisen in which delivery was accepted of certain equipment ex one of the vessels of the Commonwealth Government Line of Steamers, but subsequently the freight charges were disputed on the grounds that the measurements of the equipment received did not agree with the Bill of Lading upon which such equipment was shipped.

2. The Management of the Line has pointed out that it is not in accordance with the usual shipping practice for consignees to dispute the measurements in the Bill of Lading after the goods have been landed and delivered, but that it is the correct procedure, in any case where the consignees are not satisfied with the weights and measurements of goods disclosed in the Bill of Lading, to ask that the goods be checked before delivery is taken, in order to afford the ship's agents an opportunity of assembling and checking the cargo on its discharge from the steamers. The Management of the Line has further stated that the latter procedure only will be recognised in future.

3. The representations of the Commonwealth Line as set out in the preceding paragraph are accordingly promulgated for information, and necessary action, should the occasion arise, in order to obviate a recurrence of the difficulty in effecting settlement of accounts for freight, which has been experienced in the case alluded to above.

326.

ALTERATIONS AND ADDITIONS, DEFECTS, WORK DONE BY SHIP’S STAFF, ETC.

Article 120 of Consolidated Navy Orders 1911-1920 is cancelled, and the following is inserted in its stead:

I. ALTERATIONS AND ADDITIONS.

The Commanding Officer is not to make, except in cases of absolute necessity, any alterations or additions whatever to the ship’s hull, machinery, decks, cabins, store-rooms, or other external or internal fittings or arrangements. If such necessity arises, the steps taken should be reported to the Naval Board.

Priority of Items.

2. The following list shows the classification of Alterations and Additions according to priority, in the order shown:

   (1) Those required for safety, i.e., magazine regulations, stability, &c.
   (2) Sea-going efficiency, including engines and boilers.
   (3) Gunnery and Torpedo equipment.
   (4) Gunnery and Torpedo control.
   (5) Communications.
   (6) General equipment.
   (7) Welfare items for officers and men.

In forwarding lists of “proposed” and “approved” Alterations and Additions submitted by Commanding Officers, the C.C.A.F. and other Senior Officers are to remark on those items which they consider of paramount importance, apart from the order of priority given above. In submitting their lists, Commanding Officers should draw attention to such of the items which have already been partially completed, either by the Dockyard or Ship’s Staff, stating the percentage of work already done.

Procedure for Forwarding Lists.

3. Any “proposed” Alterations and Additions in H.M.A. Ships under the C.C.A.F., which experience suggests are desirable in all Ships of a similar class, are to be reported by letter (in triplicate) to the Naval Board through the C.C.A.F. and C.C., N.S.W.

The C.C.A.F. will consider such proposals with a view to the sea-going and fighting efficiency of Ships, whilst the C.C., N.S.W., will review the proposals on the following lines:

   (a) Practicability.
   (b) Stability and strength of ship.
   (c) Resources of dockyard in carrying out proposals.
   (d) Cost, time, and labour required.

Reports and recommendations from the Officers mentioned are to accompany the lists sent to the Naval Board.

Ships not under the command of the C.C.A.F. are to forward lists direct through the C.C., N.S.W.

Items are to be grouped under the following headings:

   (a) Hull.
   (b) Machinery.
   (c) Gunnery.
   (d) Torpedo and Electrical.
   (e) General.

Briefly, the procedure for forwarding lists of alterations and additions will be as follows:

Ship.

Commodore Commanding Australian Fleet (Necessity, &c.)
(If Ship is under the command of the C.C.A.F.)

Captain-in-Charge, Garden Island (Practicability, Cost, Time, Stability, Structural Strength, Resources.)

Naval Board (For decision).

Commodore Commanding Australian Fleet.
(For Ship).

Captain-in-Charge, Garden Island.
(For guidance).

4. It is to be distinctly understood that no “proposed” alterations or additions are to be taken in hand without the approval of the Naval Board. They are not to be included as items in a defect list. It is not sufficient to quote C.I.O.’s, C.M.O.’s, &c., as authority for “Approval.”

5. In order to arrive at a satisfactory list of proposed and approved items, the lists prepared in accordance with the directions given in the preceding paragraphs are to be typed in hectograph ink, in letter form, and forwarded to the Naval Board not less than two months before the date arranged for the ship to commence refit. A hectograph copy of the lists is at the same time to be forwarded to the Captain-in-Charge, H.M.A. Ships and Naval Establishments, New South Wales, at which the refit of the ship is to be carried out, in order that the lists may be considered at the Conference. Sketches of the proposed arrangements are to accompany each report.

Estimate of Cost.

6. The Captain-in-Charge, H.M.A. Ships and Naval Establishments, New South Wales, will then be directed to estimate for such items as it is proposed to carry out during refit. The Dockyard Officers should take the opportunity to visit the ship when next she returns to Sydney, and after consultation with the Ship’s Officers, should forward to the Naval Board the
estimates on Form D. 275a for carrying out the work. This procedure will obviate any delay in starting the work at the commencement of the refit on such items as may be ultimately approved.

Notation in Sketch-book and Engineer Officer's Note-book.

7. Should any "approved" alterations and additions be made in the machinery while the ship is in commission or undergoing repairs, explanatory sketches are to be inserted in the sketch-book, and a notification of such changes made in the Engineer Officer's note-book. (See Articles 4, 20, and 22, Steam Manual.)

Sketch of Modification to be Sent to Navy Office.

8. When any "approved" work is carried out which entails an alteration to the arrangement plans of a ship, a sketch showing the modification is to be forwarded to the Navy Office, in order that the plans may be kept up to date.

Demand of Material for Ship's Staff.

9. In forwarding proposals for alterations and additions which can be carried out by Ship's Artificers or Artisans, a demand for the necessary materials should accompany the report.

Compensating Weights.

10. In no circumstances is any work to be carried out which in any way adds to the weight of a ship without full approval being obtained from the Naval Board. If the proposal involves an addition of weight, it is to be stated if this can be compensated for by removing a corresponding weight. Weights as compensation should be noted in the column for remarks on Form D. 275a.

Completion Report of Draught, &c., of Ship.

11. On the completion of alterations and additions a statement is to be forwarded to the Naval Board, giving the draughts forward and aft and condition of the vessel in question, also the altered position of the centre of gravity due to any added weight.

System of Numbering Items.

12. The following revised system of numbering the items of alterations and additions is to be strictly observed:

(a) Only one number is to be allocated to each item, and this number is never to be changed from the time of its origin to the scrapping of the ship.

(b) This number is to be used on all occasions, i.e., in the lists forwarded by the ships' officers, in the Programme of Dockyard Work, in the estimates furnished by the Dockyard Officers, &c.

(c) In the event of a ship paying off the numbers can be obtained from the Naval Board on re-commissioning.

(d) In order to arrive at this number, each ship, on the first occasion of sending in the lists of alterations and additions, should furnish two lists in duplicate: "approved" and "proposed", in which the items are numbered from one upwards; in the first instance, the proposed items being numbered consecutively to the approval, e.g., H.M.A.S. "X" has 20 approved and 11 proposed items; the approved would be numbered from 1 to 20, the proposed 21 to 31.

(e) On the next occasion of furnishing these lists, the same numbers should be used, items which have been completed or cancelled, or are no longer required, merely being omitted; proposed new items being added consecutively to the last highest number, and, as before, approved and proposed items being on separate lists, e.g., H.M.A.S. "X" having had items 1 to 7, 11 to 15 completed, items 8 to 10, 16 to 20, and 25 to 27 approved but not completed, items 21 to 24 and 28 to 31 deferred, and proposing six new items, would furnish two lists, which should read as follows:—

Approved—8, 9, 10, 16, 17, 18, 19, 20, 25, 26, 27.
Proposed—21, 22, 23, 24, 28, 29, 30, 31, 33, 34, 35, 36, 37.

(f) In the event of instructions emanating from the Naval Board for a new item to be done, a C.N.O. or letters will be issued giving the nature of the item, and instructing the Commanding Officer to give it the next highest number available, and to inform both the Naval Board and the Dockyard of the number assigned, e.g., in the above case, when the Naval Board orders H.M.A.S. "X" to have a new alteration carried out, the Commanding Officer would give that item the number 38, and would add it to the next "approved" list.

13. A report is to be furnished through the C.C.A.F. or other senior officers, of any alterations and additions that have been made in the ship which the Commanding Officer considers have proved advantageous. The Naval Board's letter approving the alteration or addition should be quoted in each case.

II. DEFEAT Lists.

1. Defect lists are to be sent to the Navy Office for approval as soon as possible after they have been examined by the necessary Dockyard Officers at a conference with ship's officers.
Procedure for Forwarding Defect Lists.

2. The following is the procedure for forwarding defect lists from H.M.A. Ships:

Ships under the command of the C.C.A.F. are to send defect lists to the C.C.A.F. for approval. He is to scrutinize them and delete all unnecessary items. Defect lists are then to be forwarded to the dockyard, and it should be arranged that these arrive at least two weeks before a ship is taken in hand.

As soon as possible after a ship's arrival, a conference of ship's officers, dockyard officials, and officers of the staff of the Commodore Commanding, under the presidency of the C.C., N.S.W., is to be held, at the conclusion of which the defect list is to be sent to the Naval Board for approval. It is considered that a defect list should reach the Navy Office for approval within four days of the conference, which would enable the Naval Board to cancel by telegraph any items they may consider necessary.

Ships not under the command of the C.C.A.F. are to send their defect lists to the Captain-in-Charge, Garden Island, for scrutiny by the Dockyard Officers before a refit begins, and the same procedure of forwarding defect lists to the Navy Office, after a conference, is then to follow.

Copies of these defect lists, as approved by the Naval Board, will then be sent by C.C., N.S.W., immediately to—

(a) The ship in question;
(b) The dockyard at which the refit is to take place; and
(c) The C.C.A.F., if the ship in question is under his command.

3. The C.C., N.S.W., is to forward to the Naval Board, through the C.C.A.F., a report stating whether, in his opinion, any of the defects forwarded by ships under the command of the C.C.A.F. should have been allotted to ship's artificers. The C.C.A.F. is to signify his concurrence or otherwise.

A similar procedure is to be carried out with defect lists of ships not under the command of the C.C.A.F., except that for C.C.A.F. read C.O. of the ship forwarding the defect list.

4. When ships are in hand for half-yearly docking only, it will be necessary to restrict the work to docking, re-coating ship's bottom, and the examination of such under-water fittings as are known to be defective. The six-monthly docking is not to be made the opportunity for sending in defect lists for other work.

5. Commanding Officers are informed that, with reference to lists of defects, only items for specific repairs, &c., should appear in the lists. Such items as "require repair or renewal as necessary," "to be examined and refitted as necessary," and "etcetera," are not to appear in defect lists.

6. In the case of any fittings requiring special preparation, all the necessary details are to be sent with the defect list, and accurate and fully dimensioned sketches—with templates, gauges, or patterns of any parts requiring renewal—should accompany the lists, so that castings and forgings can be put in hand without delay.

7. The practice of sending in a defect list on every occasion of a ship visiting Sydney is to be discontinued. Only urgent defects which definitely affect the fighting or sea-going efficiency of a ship, and which cannot be undertaken by the ship's staff, may be taken in hand by the dockyard on these occasions. Full reasons for these defects, with explanatory sketches, if necessary, must be sent to the Naval Board by the C.C., N.S.W., for Board approval before the work commences.

8. Defects which can be completely undertaken by the ship's staff are not to be included in defect lists.

9. In order to avoid duplication of labour in dealing with lists of defects in H.M.A. ships, the pink lists (Form S.340) should contain all items of work which, in the opinion of the Commanding Officer, cannot be deferred without loss of fighting and sea-going efficiency.

List of Work to be done by Ship's Staff.

10. On each occasion of one of H.M.A. Ships—except T.B.D.'s and smaller craft—proceeding to a dockyard to refit, a list of items of work not included in the defect list is to accompany the defect list, showing the necessary work on which the ship's staff will be occupied during the time available, in order that the dockyard officers may be made fully aware of the extent of the employment of the ship's staff, and to enable the amount of dockyard assistance to be arranged, so as to insure the completion of all known defects within the time available.

Length of Refits.

11. The length of a refit will be one month—under normal circumstances—and ships under the command of the C.C.A.F., will refit according to a programme submitted by him, and approved by the Naval Board. Time spent in storing, fueling, ammunitioning, &c., is not included in the month allowed for the refit, but as much as possible should be done in that month, provided the work of the dockyard is not interfered with.

Refitting programmes for ships not under the command of the C.C.A.F. will be arranged by the Naval Board.

12. Commanding Officers of Destroyers forming part of a flotilla are to render weekly Repair Sheets, Form A.S. 343, to the Commander (D), who is to scrutinize them carefully and eliminate any item that could be done by the Destroyers' staff. If necessary, the Commander (D) is to detail assistance from other vessels of the flotilla.
Repair Ship.

13. All ships requiring work to be carried out by the Repair Ship are to forward the list of items to the C.C.A.F. in triplicate, who will cause them to be scrutinized by the Fleet Engineering Officer. They are then to be forwarded to the C.O. of the Repair Ship; any item not within the capacity of the workship being indicated by him. One list is to be retained by the Repair Ship, and the two remaining are to be sent to C.C.A.F., one for retention in the office of the Fleet Engineer Officer, and the other for the ship concerned.

14. Items from each ship are to have numbers consecutive to the previous lists.

15. Lists from Destroyers are to be forwarded through Commander (D), who is to authorize the taking in hand of urgent defects in the absence of the Flagship. The complete lists are, however, to be forwarded to C.C.A.F. showing those items which have been taken in hand.

16. No alterations or additions are to be effected by the Repair Ship without previous approval by the Naval Board.

17. Individual ships are responsible that the correct patterns, templates, detailed drawings, &c, are sent to the Repair Ship. Detailed drawings or templates supplied by ships for items of defects likely to recur from time to time are to be kept in the Repair Ship, and registered on the request of the ships concerned.

18. Special attention is directed to the necessity for the keeping of the following books:

The Journal of Work and Record of Defects;
The Record of Work Book.

The Commanding Officer is responsible that these books are carefully kept, and that the heads of Departments do not allow defects that can be undertaken by the ship's staff to accumulate.

When the ship is about to be taken in hand for refit, these books are to be produced at the conference referred to in section IV., paragraph 1, and will be carefully considered in relation to the apportionment of work.

19. When one or more ships of the Fleet are in company with the Flag, the C.C.A.F. is to arrange for Staff Officers to visit each ship periodically and scrutinize the Journal of Work and Record of Defects, and the Record of Work Book. They are to report to the C.C.A.F. the items on Dockyard Defect List in the Journal, which should be carried out by the ship's staff and Repair Ship. The C.C.A.F. is to take the necessary action in the matter. This does not in any way relieve the Captain of the ship of his duties in this connexion.

III. Supplementary Defect Lists.

1. Should any defects develop for which Dockyard assistance is required subsequent to the transmission of the main defect list, a supplementary list is to be sent direct to the Navy Office, through the C.C., N.S.W., for approval. The list is to be strictly confined to items of work which could not be foreseen at the time of the first report. A letter from the Commanding Officer of the ship, stating the reason for each defect, is to accompany the list.

2. Defects, which are discovered in opening up the ship during a refit, and which must be made good for reasons of sea-going and fighting efficiency, may be taken in hand at once by the dockyard. Full reasons for these defects, with explanatory sketches and an estimate of cost, must be sent to the Navy Office by the C.C., N.S.W.

IV. Inspection of Defects—Conference.

1. When ships in commission are taken in hand by Garden Island Dockyard for refit, an inspection of defects will be carried out on board the ship by dockyard officers. A conference will then be held, the C.C., N.S.W., presiding; those attending being the Ship's Commanding Officer and specialist officers, dockyard officers, and, if the C.C.A.F. desires it, the specialist officers of his staff. The conference will determine the exact procedure of the refit and the work to be apportioned to the ship's staff and dockyard respectively.

The date of completion of the refit will also be decided at the conference, taking into consideration the question of "approved" alterations and additions.

The Naval Board and the C.C.A.F. are to be kept informed of the dates when ships under refit are to be ready for sea.

2. When ships in commission are taken in hand by Cockatoo Island Dockyard for refit, the Engineer Manager of Garden Island will be responsible, as overseer, for the work, which will be carried out under the supervision of the C.C., N.S.W.

V. Refits—Estimates for Defects, Alterations, Additions, etc.

1. The following financial procedure is to be observed when forwarding Defect Lists and Lists of Alterations and Additions into office:

(a) An approximate estimate of the total cost of the proposed work is to be made.

(b) Notification is to be made on the Defect List by the Certifying Officer whether funds are or are not available locally to the amount of the approximate estimate.
2. The following procedure is to be observed when work is completed:

(a) A detailed list of expenditure is to be prepared showing the amount of the actual expenditure as compared with the approximate estimate, and the Certifying Officer at Garden Island is to take the following action:

(i) If cost exceeds the estimate, to certify that funds to the additional amount are or are not available at that Establishment.

(ii) If cost is less than the estimate to note the reduction.

(b) The expenditure statement is then to be forwarded to the Naval Board for information; and, if the expenditure exceeds the estimate, covering approval and Finance Authority Number sought for the excess expenditure.

3. It should be clearly understood that the strictest economy is to be observed in regard to all defects.

338.

THE THOMAS GERALD GRICE SCHOLARSHIP.

The attention of Commanding Officers and all concerned is drawn to Article 342 of the Consolidated Navy Orders 1911–1920, regarding the Thomas Gerald Grice Scholarship.

2. The dates of the examination in 1923 are Tuesday, 6th November, and Wednesday, 7th November.

(A.465/202/188.)

339.

LIABILITY TO CUSTOMS DUTY IN RESPECT OF STORES DISPOSED OF BY DEFENCE DEPARTMENT.

The Crown Solicitor has given an opinion that Customs duty is not payable on stores disposed of by the Commonwealth, notwithstanding that such stores would have been liable to duty at time of importation had they not been imported by the Commonwealth.

2. Section 131 of the Customs Act provides that no goods, the property of the Commonwealth, shall be liable to any duty of Customs. The subsequent sale of the goods does not alter the position, as Customs duty is not chargeable upon sale, but is chargeable upon importation.

3. The practice which has existed hitherto of paying Customs duty on imported stores sold to the public is, therefore, to be discontinued.

4. The following amendment of Naval Account Instructions is approved:

After Article 237 the following Article is inserted:

“237A. Customs Duty.—Customs duty is not payable on stores sold by the Commonwealth, notwithstanding that such stores would have been liable to duty at time of importation had they not been imported by the Commonwealth.”

(S.A.612/201/75.)

340.

IRREGULARITIES IN ACCOUNTS, STORES, ETC.

Attention is directed to the provisions of Naval Account Instruction No. 403, which should be complied with by all Officers concerned.

2. So far as this order relates to H.M.A. Ships, reports regarding such matters should be made to the Naval Board, who will notify the Auditor-General.

3. Article 403 of the Naval Account Instructions is repealed, and the following Article is inserted in its stead:

403. Irregularities.—Advice to Naval Board and Auditor-General.

(a) H.M.A. Establishments and Offices.

Any cases of alleged embezzlement or defalcation or misappropriation of cash or goods, the property of the Commonwealth, are to be reported in full to the Naval Board immediately upon discovery.

The Auditor-General, or his representative, is to be advised direct at the same time, and a copy of notification to Auditor-General forwarded to Naval Board.

(b) H.M.A. Ships.

Any such cases arising in connexion with H.M.A. Ships are to be reported to Naval Board, who will take steps necessary to inform Auditor-General.

(P.A.349/12/26.

(This Order will be reprinted for posting on Notice Boards.)

346.

PURCHASES OF FRESH AND OTHER PROVISIONS WHERE NO CONTRACT APPLICABLE.

In the case of H.M.A. Ships calling at Australian Ports where a definite contract for supply of fresh provisions is not known to exist, Ships should, wherever practicable, arrange in advance with the Secretary of the District Contract Board of the State concerned to obtain necessary requirements, as that Board is in a position to take the required action to obtain supplies with the least delay and to the best advantage. Even if previous arrangements cannot be made before arrival at a capital port, the District Contract Board has the necessary machinery to obtain supplies with the greatest expedition, but wherever possible reasonable notice of requirements is desirable, particularly in the case of outports.

2. The foregoing procedure is intended to apply only in cases where visits are unexpected or of short duration. Until further notice it is desired that the necessary Contracts for supplies during Fleet Cruises should continue to be arranged through Navy Office.

3. Action similar to that indicated in paragraph 1 above should be followed where in cases of emergency the purchase of provisions ordinarily obtained from the Royal Edward Victualling Yard is necessary at ports other than Sydney.

(G.A.404/201/10.)

347.

AMENDMENT OF REGULATIONS AND INSTRUCTIONS FOR THE AUXILIARY SERVICES OF THE PERMANENT NAVAL FORCES.

The following amendments of the Regulations and Instructions for the Auxiliary Services of the Permanent Naval Forces have been approved:

1. After Article 24, the following Article is inserted:

"24 (a). Good Conduct Badges and Medals.—The King's Regulations and Admiralty Instructions in regard to the award, deprivation and restoration of Good Conduct Medals and Badges apply to members of the Auxiliary Services. Badges are to be awarded as from the date they become due; but pay will be credited only when the member is in receipt of seagoing rates of pay, as provided for in Article 65. Applications for the award of the Long Service and Good Conduct Medal are to be made when due; a gratuity and allowance are payable on the award of a Long Service and Good Conduct Medal as provided in Article 74."

2. Article 56 is amended by omitting from the third and fourth lines of clause (1) the words "any badge of distinction whatever" and inserting in their stead the words "Badges of distinction, except such Good Conduct Badges as the general workman may be entitled to under the Regulations for the Permanent Naval Forces."

3. Article 58 is amended by omitting from the fifth and sixth lines of clause (1) the words "any badge of distinction whatever" and inserting in their stead the words "Badges of distinction, except such Good Conduct Badges as the employee may be entitled to under the Regulations for the Permanent Naval Forces."

4. Article 74 is amended by omitting from the third line the words "on the R.A.N.R. Staff" and inserting in their stead the words "in the Auxiliary Services."

(S.A.416/201/14.)
CORRIGENDA.

Navy Order No. 272 of 1923 is amended as follows:

(1) by inserting in the first line of paragraph (1) after the words "Commanders in Command" the words "and District Naval Officers (within their respective States)".

(2) by inserting in the third line of sub-paragraph (2) after the words "Command only" the words "and District Naval Officers (within their respective States)".

Navy Order No. 277 of 1922 is amended by inserting in the second line of paragraph (1) after the word "Blankets" the words "Quilts, Counterpanes."

PASSAGES OF OFFICERS AND MEN TO AND FROM THE UNITED KINGDOM.

The following instructions are issued for guidance in connexion with the arrangement of passages for Officers and ratings between Australia and the United Kingdom:

(i) Officers of the rank of Commander or above shall have the option of travelling between Australia and the United Kingdom by the P. and O. or Orient Steamers, if berths are available.

(ii) Officers below Commander’s rank except Officers in charge of drafts (who will travel by the Commonwealth Government Line of Steamers), will normally travel by the Cape route.

(iii) In cases where special approval is given to Officers to make their own arrangements for passage to America, &c., the amount of money advanced will normally be the equivalent of the cost to the Department of a passage by the Cape route, viz., ordinary rates less 5 per cent.

(iv) Chief Petty Officers will travel in Ships having second class accommodation.

(v) All other ratings will travel by the Commonwealth Government Line of Steamers.

2. Navy Order No. 406 of 1922 is hereby cancelled.

(This Order will be reprinted for posting on Notice Boards.)

350. 

COAL HULK "HANKOW" AT THURSDAY ISLAND—INSTRUCTIONS.

The coal hulk Hankow has been transferred to Thursday Island with Westport coal for Fleet purposes and is under the immediate supervision of the Naval Agent at that Port.

2. Supplies will not be issued unless Naval Board authority has been given in accordance with Article 136 of Consolidated Navy Orders 1911-1920.

3. Ships receiving coal are to tally supplies in the usual manner, in conjunction with the Caretaker of hulk, and Form A.S. 134D (in duplicate), receipted as necessary for quantity supplied, is to be delivered to the Caretaker at the port. — /fo.

4. The Caretaker is required to afford every assistance to Ships coaling and, inter alia, to keep all coal gear in good order and to make good small defects, as far as lies in his power. Commanding Officers of H.M.A. Ships coaling from hulk are to cause assistance to be provided to make good defects which can be undertaken by Ship’s Staff, and for which assistance is requested by the Naval Agent.

5. The Naval Agent is required to transmit to Secretary Naval Board, a quarterly report on the general condition of hulk, machinery, coal and coal gear, specially detailing defects which require attention, and Commanding Officers of H.M.A. Ships visiting Thursday Island are to arrange wherever practicable for such a report to be furnished when requested by the Naval Agent.

6. The hulk is to be left as far as possible on an even keel after coaling operations have been completed.

7. Commanding Officers of Ships coaling are responsible that, as far as is practicable, all damage to gear, &c., is made good before leaving Thursday Island.

8. H.M.A. Ships are to provide labour for running the hoist and machinery of hulk whilst coaling, and, except in the case of Fleet Auxiliaries, shore labour for coaling is not to be employed without special Naval Board approval.

9. Commanding Officers of Ships are to arrange, when requested by the Naval Agent, for replenishment of Hankow’s Consumable Naval Stores when such stores are urgently required. On all occasions when replenishment is made by H.M.A. Ships, Transfer Voucher A.S. 549 is to be completed, one copy supplied to hulk and a receipted copy forwarded to the Director of Naval Stores, Navy Office. Ordinarily all Naval Stores for hulk will be demanded by the Naval Agent from the Naval Store Officer, Sydney, but in special circumstances stores will occasionally require replenishment by ships present at the port.

11. Commanding Officers of H.M.A. Ships are to endeavour to keep the hulk constantly efficient, employing the ship’s staff wherever possible so that the cost of upkeep will be reduced to a minimum.

351. 

ADVANCEMENT OF PETTY OFFICERS AND MEN.

The rules governing the advancement of ratings in the Royal Australian Navy are to be as laid down in the King’s Regulations and Admiralty Instructions, provided that—

(a) Where the authority to give the rating is shown as “Admiralty,” the “Naval Board” is to be substituted.

(b) The Commanding Officer, Flinders Naval Depot, will be the authority for the advancement of all ratings, except in cases where the authority of the Naval Board is specifically required.

(c) Where, to meet local conditions, Royal Australian Navy Regulations differing from K.R. & A.I. have been introduced, the R.A.N. Regulations shall prevail.

(d) Where the qualifications laid down can only be obtained by a course in one of the Royal Navy Training Ships in England, the Naval Board may substitute a course or examination to be carried out in Australia.

2. With reference to the foregoing, it has been decided that no advancements to fill vacancies which may occur in the complements of Ships and Establishments are to be made by the Commanding Officers. Such vacancies should be reported to the Commanding Officer, Flinders Naval Depot, in order that consideration may be given to the claims of all ratings serving in other Ships and Establishments who may possess greater claims for advancement to the vacant position. That is to say, advancement will be made by rota and drafting arrangements, if necessary, will be made to fill the vacancy.

(Article No. 174 of Consolidated Navy Orders 1911-1920 and Navy Orders 265 of 1922 and 210 of 1923 are hereby cancelled.)
ROYAL NAVY RATINGS ON LOAN—ADVANCEMENT.

The names of ratings lent from the Royal Navy are retained on the promotion rosters of their Home Port Divisions, and they will be advanced in the ordinary course on reaching their turn on these rosters, if qualified and recommended. The higher pay is not, however, payable where promotion involves immediate reversion to the Royal Navy.

2. The usual half-yearly returns of ratings lent from the Royal Navy who, having passed, are qualified and recommended for advancement, are to be rendered direct to the Naval Representative for communication to the Commodores of the Homes Ports (vide Article 333 Consolidated Navy Orders 1911-1920).

3. Prior to the issue of Navy Order No. 265 of 1922, dated 22nd August, 1922, it was possible for a rating to be advanced to a higher rating on the authority of the Commanding Officer of the Ship in which he was serving, to fill an actual vacancy in the Ship's complement, provided that he was fully qualified for advancement, and that the authority to grant the higher rating was vested in the Captain under King's Regulations. In such cases, promotion was regarded as final, and no reversion took place on the rating's return to the Royal Navy.

4. Navy Order No. 265 of 1922, however, withdrew from the Commanding Officer, as regards the Royal Australian Navy, the authority to make advancements in the Ship on vacancies occurring, and, since the date of this Navy Order, all advancements in the Royal Australian Navy require the authority of the Navy Board or the Commanding Officer, Flinders Naval Depot, as the case may be. All advancements are, in fact, made solely on the basis of Fleet numbers.

5. In accordance with A.F.O. 2690/1921, any local rating conferred in a Dominion Navy, otherwise than in a vacancy in complement, will be regarded as a local promotion only. In the case of R.N. ratings, therefore, who have been promoted in the Royal Australian Navy since 22nd August, 1922, otherwise than from their Port Division rosters, their advancement must be regarded as having only local effect, and, in the event of their turn for advancement on their Home roster not having arrived prior to the completion of their engagement in the Royal Australian Navy, such ratings must revert to their former rating on return to the Royal Navy.

6. Attention is called to Clause 3 of A.F.O. 2690 of 1921, which provides that any "local" rating conferred in the Royal Australian Navy, other than a vacancy in complement, should be noted on the Certificate of Service in the column headed "Special recommendation, &c.," at the bottom of page 2.

7. In the case of ratings now serving in the Royal Australian Navy, who may have been advanced prior to 22nd August, 1922, to fill an actual vacancy in the complement of a Ship, and where such ratings belong to a class in which the Captain was authorized to grant the higher rating, no reversion will take place on return to the Royal Navy.

8. There is reason to believe that Admiralty instructions referred to in Clause 6 have not always been observed, and that, in certain cases, notations of local advancement have been made in the main portion of page 2 of the Service Certificate instead of at the foot.

9. When a rating, therefore, who has been advanced in the R.A.N. prior to 22nd August, 1922, is being returned to the United Kingdom for reversion to the Royal Navy, a communication should be attached to his Service Certificate, stating whether his advancement was to fill a vacancy in the complement of the Ship, or to complete Fleet numbers. In the event of definite information on this point not being available from Ship's records, it should be obtained by reference to the Commanding Officer, Flinders Naval Depot.

10. Navy Order No. 433 of 1921 is hereby cancelled.

(P.A.568/202/38.)

(This Order will be reprinted for posting on Notice Boards.)

(P.A.465/205/34.)

(This Order will be reprinted for posting on Notice Boards.)
355. WASHING OF OFFICERS' BEDDING IN H.M.A. SHIPS.

Several instances have recently occurred where claims for the washing of Officers' Loan Bedding, such as Blankets, Pillow Slips, Mattress Covers, &c., have been referred to Navy Office for special approval. It is pointed out in this respect that, where it is considered to be more advantageous for the Service for Officers' Bedding to be laundered direct from the Ship or Establishment concerned, it is desired such course be followed.

2. Washing of Officers' Loan Bedding is only a Service liability on supersession of the Officers concerned or on paying off, and where washing is effected by a Ship at Sydney arrangements are to be made, as far as is practicable, for the Service Contractor to undertake the work at contract rates.

3. The contractor for the carrying out of Laundry Services for H.M.A. Naval Establishments at Sydney for period 1st January to 31st December, 1923, is the Lanham Steam Laundry, Forest-street, Forest Lodge, Sydney. Further information required can be obtained on application to the Naval Store Officer, Sydney.

(A.N.1/1/325.)

(G.A.546/202/9.)

DEFERRED PAY.

1. The Naval Board is of opinion that there are certain misunderstandings in the Fleet in regard to the purposes of Deferred Pay, and the conditions under which it is provided.

2. It should be clearly understood that Deferred Pay is not a sum of money accumulating to the credit of an individual which has been deducted from his emoluments for his current services, and which is available to him to draw upon at regular intervals or when any particular pecuniary liability becomes imminent. It is a fund, quite independent of pay for current work, and is payable only on the fulfilment by the individual of certain conditions and for certain purposes.

3. The primary object of Deferred Pay is to enable a member of the Permanent Naval Forces, on finally retiring from the Service, to make provision for his future, and takes into consideration the disadvantage which such a person suffers in re-entering civil life after a long period of service in the Naval Forces. In effect it serves the same purpose as Retired Pay and Pension granted to members of the Royal Navy, but has a wider application in that both long and short service members are credited.

4. Another purpose of Deferred Pay is that it operates as a form of insurance for the benefit of the member and his dependents against—

(a) Invalidity.
(b) Old age.
(c) Death.

the benefits from which are not available until one or other of the above contingencies arise.

5. It is observed that a great part of the early service of both Officers and Men is more or less non-effective, as it consists of training and the gaining of experience to qualify for the higher ranks and ratings. Further, during those early years many facilities at Government expense are available to improve a member's education and thus to improve his value, not only in the Naval Service, but in civil life on his discharge from the Service. From this point of view it will be evident that the Service does not begin to receive value to warrant payment of Deferred Pay until some time after the initial period of training is completed.

6. In the event of an Officer or Man leaving the Service before having completed a reasonably long period of service, it cannot be considered that he has earned Deferred Pay in view of the following:

(a) He has not returned in effective service the value of his training.
(b) The cost of the training is lost to the Government, as it involves the entry and training of another to replace him.
(c) The practicability of his entering into civil life has not only not been impaired by his short service, but has most probably been very much enhanced.

7. The Naval Board, therefore, desire that it should be thoroughly understood by all concerned, that they have no claim to the payment of Deferred Pay unless and until the conditions under which it is granted have been entirely and satisfactorily fulfilled.

(A.A.556/201/45.)
PAYMENT OF DEFERRED PAY OF OFFICERS ON RESIGNATION OR VOLUNTARY RETIREMENT.

With reference to Navy Order No. 333 of 1923, promulgating amendments to Financial Regulations and Instructions (Sea-going), Article 12, Clauses 3 and 4, regarding the position, in respect of Deferred Pay, of Officers who are discharged from the Service at their own request, whether by voluntary retirement or resignation, the Board wish Officers to understand that it is not the intention that the act of resignation or voluntary retirement should in every case necessarily involve forfeiture of Deferred Pay.

2. The amendment of the Regulations is intended to give the Board the power to withhold Deferred Pay in cases where Officers insist on resigning against the wishes of the Board and after being informed that such resignation involves an appreciable loss or inconvenience to the Service.

3. Clause 5 of Article 12, Financial Regulations and Instructions (Sea-going), provides that the Board may in special circumstances authorize payment of the whole or any portion of the Deferred Pay which, under Clause 4 as amended, would otherwise have been forfeited, and it may be anticipated that as a general rule, payment of Deferred Pay would be authorized in cases where resignation or voluntary retirement takes place with the concurrence of the Naval Board and without involving loss or inconvenience to the Service.

Generally speaking, Officers will be expected to give a certain period of service before their resignation can be viewed as other than contrary to the interests of the Service. The period of service required of an Officer in this connexion would vary according to whether he had been entirely trained in the Service or otherwise, viz.:—

<table>
<thead>
<tr>
<th>Class of Officer</th>
<th>Period of Service normally required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Officers entered through the R.A.N. College</td>
<td>17 years from age of 18 years</td>
</tr>
<tr>
<td>All other Officers</td>
<td>10 years from date of first commission or warrant</td>
</tr>
</tbody>
</table>

5. It should be clearly understood that the periods of service shown in the preceding paragraph are no more than an indication of the probable Board decision in normal cases. Each individual case will be dealt with on its merits, the primary consideration being always the requirements of the Service. In exceptional cases an Officer who could conveniently be spared might be allowed to receive his Deferred Pay on resignation, even though he had not completed the service mentioned above; conversely, the Board might decline to authorize payment to an Officer who has fulfilled the specified service, if his resignation were regarded as a serious loss to the Service.

6. The attention of Officers is drawn to the conditions under which R.N. Officers are placed as regards voluntary retirement with Retired Pay or gratuity. It will be noticed that the option of retirement, carrying with it either retired pay or gratuity, can only be exercised with the approval of the Admiralty, i.e., if the state of the List permits. Deferred Pay is a substitute for the Admiralty retired pay or gratuity, and Officers, by the recent amendment to the Deferred Pay Regulations, are placed under no disadvantage as compared with Officers of the Royal Navy.

(P.354/1/66.)
6. The following procedure is to be carried out regarding the disposal of the worked papers of R.N. and R.A.N. candidates:

(i) The worked papers are to be forwarded to the Commanding Officer, Flinders Naval Depot, at the end of the day of the Examination, the Commanding Officer, Flinders Naval Depot, being informed by Signal when this has been done.

(ii) When no worked papers are being forwarded, nil returns are to be rendered by all Examination Centres and detached Ships.

(c) Educational Test for Accelerated Advancement to Men’s rating.

The present arrangements, promulgated in Navy Order No. 66 of 1922, are to continue.

Candidates should not be allowed to sit for Educational Examinations unless they are recommended by their Commanding Officers, and are, in the opinion of the Instructor Officer or Schoolmaster, considered to have a reasonable chance of passing.

Navy Orders Nos. 51, 72, 185, 409, and 432 of 1921, and Article 198 of the Consolidated Navy Orders 1911-1920 are hereby cancelled.

With reference to Admiralty Fleet Order 2056 of 1923, all H.M.A. Ships and Establishments are to forward to the Director of Victualling, so as to arrive at Navy Office not later than 30th November, 1923, reports giving the information called for in the above quoted Admiralty Fleet Order.

366.

NAVAL ACCOUNT REGULATIONS AND INSTRUCTIONS.

The Book entitled—

" Royal Australian Navy."

" Naval Account Regulations and Instructions," bearing printer’s No. C.2130, which has been issued to H.M.A. Ships and Naval Establishments, is to be brought into force forthwith, and all regulations and instructions contained therein are to be carefully observed by all concerned. The date, “ 1923,” is to be inserted conspicuously on the cover of all copies of this publication.

2. References to this book are to be in the form of—“ Naval Account Regulations and Instructions, Article —, Clause —.”

3. All previous editions of the Naval Account Regulations and Instructions are hereby superseded.

4. This Navy Order is being reprinted and a copy of the reprint is to be inserted in all copies of the above mentioned book.

5. A return is to be furnished immediately by all H.M.A. Ships and Naval Establishments, stating the number of copies of Draft Naval Account Regulations already held, i.e., those supplied prior to the issue referred to herein.

367.

CONSOLIDATED ORDERS AND REGULATIONS, AND OTHER BOOKS OF REGULATIONS AND INSTRUCTIONS — ROUTINE FOR PROMULGATING AMENDMENTS.

1. The Consolidated Navy Orders are now being reprinted and will be ready for issue shortly. The new volume, which will include all Orders of a permanent nature issued up to 30th June, 1923, as well as the Naval Forces Regulations, incorporated in appropriate Chapters, will be entitled “ Consolidated Orders and Regulations, Volume I.”, short title, “ C.O.R., Vol. I.”

2. Volume II. of C.O.R. will be reprinted annually. It will contain all amendments and additions to Volume I, made since the publication of the original book.

3. Separate amendments and additions to C.O.R. will be promulgated from time to time in Navy Orders, in the same manner as amendments of other Books of Regulations and Instructions.

4. On account of its size, it has been found impracticable to interleave the C.O.R. with blank pages for the purpose of pasting in amendments. In order to facilitate the reading of Articles of C.O.R. which are amended, a scheme similar to that followed in K.R. and A.I. amendments will be instituted. This scheme will be extended to cover amendments of all Books of Regulations and Instructions in use.

5. Once a month, or more frequently if found necessary, amendments and additions to these Books will be printed in a series entitled “ R.I.,” on one side of the paper only, for the convenience of those who prefer amending Books of Regulations by the pasting-in method. At the end of each issue of R.I. will appear a set of tables, one for each Book of Regulations and Instructions, showing seriatim, the Articles which have been amended, and the number of the issue of R.I. effecting the amendment. Therefore, in reading Books of Regulations and Instructions, it will be necessary to consult the latest issue of the “ R.I.” series. The practice of reprinting amendments on separate sheets will be discontinued.

6. The date upon which this revised procedure will come into operation will be notified in due course.

368.

2. Steps should always be taken, however, by Commanding Officers to see that when drafts are travelling and sufficient notice can be given to the Railways Authorities, seats are reserved in advance without extra charge. The Victorian Railways Department has agreed to reserve compartments without charge in the 4.0 p.m. express to Albury, where drafts of eight or more are travelling, and also in the 8.25 a.m. express Albury to Melbourne. Application in the latter case should be made to the New South Wales Railways Department, which will make the arrangements on behalf of the Victorian Railways Department.

3. The New South Wales Railways Department performs the booking of seats on behalf of other railway departments whose services connect at the borders with the New South Wales Railways, and as regards the 8.25 a.m. express from Albury to Melbourne, they should be requested to reserve accommodation in the unbooked portion of the train when drafts of Naval ratings are travelling thereby. The Queensland Railways Department advises that the usual charge of 1s. will be made for all seats booked on Queensland railways.

**Article 45A.—Previous Service.**—Where a person has become transferred or appointed from any position of a permanent nature under the State or Commonwealth to a permanent position in the service of the Commonwealth under the provisions of the Defence Act or Naval Defence Act, all continuous service of such person under the State or Commonwealth shall, for the purpose of furlough, as provided in Articles 45 and 49, be reckoned as service in the service of the Commonwealth under the provisions of the Defence Act or Naval Defence Act.
Article 46.—Members of the Permanent Naval Forces who served under the terms of the Naval Agreement Act 1903, may, for the purpose of furlough, be allowed to count service under the terms of the Naval Agreement Act 1903 as service in the service of the Commonwealth under the provision of the Defence Act or Naval Defence Act, provided that service under the Defence Act or Naval Defence Act is continuous with service under the Naval Agreement Act 1903.

Article 46A.—Furlough on Retirement.—When a person who has continued in the service of the Commonwealth for at least twenty years is retiring, the Naval Board may authorize payment to him upon retirement of a sum equivalent to the amount of pay that would have been received by him during such leave of absence as would immediately prior to retirement have been granted to him under Article 45.

Article 47.—Furlough Due at Death.—Upon the death of a person who at the date of his death was eligible under the foregoing Articles for grant of leave of absence, the Naval Board may authorize payment to the dependants of the member of a sum equivalent to the amount of pay which would, under those Articles, have been granted to the person had he retired immediately prior to the date of his death.

Article 48.—Notwithstanding anything contained in the above Articles—

(a) There shall not be granted, in respect of the service of any person, leave of absence or pay on retirement or death exceeding in the whole twelve months on full pay or its equivalent;

(b) Except upon the retirement of a person who had attained the prescribed age of retirement, leave of absence for recreation shall not be granted under regulation 140 of the Naval Forces Regulations in respect of the year in which leave of absence granted under the foregoing Articles commences, and, if leave of absence for recreation has been granted in the year in which leave of absence granted under the Articles aforementioned commences, it shall be regarded as part of the period of such leave of absence, provided that the total period of leave of absence for recreation, which may under this paragraph be withheld or regarded as portion of the period of leave of absence granted under the foregoing articles during any person's period of service, shall not exceed the period of absence for recreation which may be granted in respect of one year of service; and

(c) The official conduct record of a person shall be taken into consideration in determining whether the whole or any portion of the leave of absence or pay provided in the foregoing Articles may be granted.

Article 49.—Extended Leave.—(1) The Naval Board may grant to any person whose period of service is less than twenty years who is ineligible for furlough under Articles 45 to 46A immediately prior to his retirement from the service on or subsequent to his attaining the prescribed age for retirement, leave of absence on full pay for a period not exceeding that appropriate to his service, as specified in the following scale:—

Service of sixteen years and less than twenty years—five months.
Service of twelve years and less than sixteen years—four months.
Service of eight years and less than twelve years—three months.
Service of four years and less than eight years—two months.

(2) Except as provided in clause (5) a person shall not be eligible for the grant of extended leave under this Article unless he has completed twelve years’ service.

(3) Payment in Lieu of Extended Leave.—In lieu of leave in accordance with the foregoing clauses, the Naval Board may authorize payment to a person eligible for such leave upon his retirement from the service of a sum equivalent to the pay for a period of leave not exceeding that which the person could have been granted under this Article.

(4) When a person who has not attained the prescribed age for retirement is invalidated from the service after less than twenty years’ service, and the cause of such invaliding is permanent and is not due to misconduct or to causes within his own control, the Naval Board may authorize payment to the person of a sum equivalent to the pay for a period of leave not exceeding that for which, had he attained the prescribed age for retirement, he would have been eligible under clauses (1) and (2) of this Article.

(5) In the event of the death of a person before he has completed twenty years’ service and either before or after he has attained the prescribed age for retirement, the Naval Board may authorize payment to the dependants of deceased of a sum equivalent to the pay for the period of leave which the member would have received had he been eligible for, and granted leave of absence under clause (1) of this Article.

(6) The official conduct record of a person shall be taken into consideration in determining whether the whole or portion of his leave of absence or pay provided in this Article may be granted.

CANDIDATES FOR ENTRY TO E.R.A. AND ARTISAN BRANCHES—
PROOF OF TRADE QUALIFICATIONS.

The Naval Board have further considered the question of the trade qualifications of candidates for entry to the Engine Room and Artisan Branches, and have decided as follows:

(a) ENGINE ROOM ARTIFICERS.
1. Candidates must produce indentures showing an apprenticeship for 5 years as Fitter and Turner, Coppersmith, Boilermaker, or Engineer Smith, or written evidence of practical experience during a similar period. Occasionally a few Patternmakers or Moulders may be entered.

2. Workshop Service must have been performed in Works where Steam Engines, Boilers, or Internal Combustion engines are made or repaired.

3. No time served before the age of fifteen years will be counted and not less than two years of the apprenticeship time must have been spent at fitting, erecting, or repairing engines and machinery, either in the Works or outside.

(b) ARTISAN BRANCHES.
1. Candidates must produce indentures showing an apprenticeship of at least five years, or written evidence of practical experience in the respective trade covering a similar period.

2. Candidates who, owing to age on application or other unavoidable causes, are unable entirely to comply with the above requirements, but whose papers show good trade qualifications and experience, are to be allowed to complete the trade test, but must not be finally entered until the whole of the entrance papers, including the result of the trade test, have been submitted to the Naval Board for approval.

3. It is recognised that a candidate may be a fully indentured tradesman and yet may fail to pass the Service trade standard. On the other hand, a candidate may not have served an apprenticeship, but may have sufficient training and experience to comply entirely with Service conditions and trade requirements. Recruiting Officers and Officers conducting trade tests are, therefore, to exercise the greatest care in the selection and passing of these candidates, in order to maintain a high trade standard in the Service.

Navy Order No. 50 of 1923 is hereby cancelled.

SPECIAL XMAS DAY MENU FOR SHIPS IN GENERAL MESS.

With reference to the Service custom by which H.M.A. Ships and Shore Establishments provide a special menu for the General Mess on Xmas Day, an examination of Provision Accounts of recent years shows that the quantities issued in some instances have been unduly excessive and conducive to waste. It is therefore communicated for future guidance that the Xmas Day menu is to be confined to a maximum cost of two and one half times the value of the Victualling Allowance in force at the time. The full value of issues is to be charged in the Daily Statement of General Mess in the usual manner, credit being taken for the numbers victualled on the basis of the ordinary Victualling Allowance.

2. The foregoing instruction is issued to standardize the Xmas Day menu only, and does not in any way relieve the Accountant Officer of his responsibility under regulations by which the victualling is to be so arranged that the ordinary Victualling Allowance will cover the cost of victualling the Ship's Company over a period.

PUBLICATION—"MEDICAL AND SURGICAL NOTES FOR USE OF SURGEONS OF THE R.A.N. AND R.A.N.R."

It has been brought under notice that a publication—"Medical and Surgical Notes for use of Surgeons of the R.A.N. and R.A.N.R.", issued some years ago, has caused certain misunderstandings.

2. The publication in question contains the following statement:

"These notes are not to be regarded as Official, or as having been authorized by the Naval Board."

In view of this, all copies of this publication are to be destroyed, and any reference to same should be avoided in future.

3. A publication entitled "Medical Instructions for the Sea-going Forces" will be revised and re-issued at an early date.

The special circumstances necessitating the purchase are to be shown in the body of each requisition.

(3) Whenever claims are passed for payment the appropriate requisitions are to be indorsed accordingly. All claims must bear the number of the approved requisition, and arrangements for settlement effected prior to the ship's departure from the port where the purchase is made.

(A.A. 401/207/20.)

(This Order will be reprinted as an "Amendment.")

404. SERVICE BAGGAGE—CONVEYANCE OF.

407. AMENDMENT OF REGULATIONS AND INSTRUCTIONS FOR THE R.A.N.R., 1922. TRAINEES ATTENDING EDUCATIONAL ESTABLISHMENTS.

The only departure from this procedure which is permitted is when the responsible officer is absent from the Ship on account of sickness, leave, or special duty.
